INTRODUCTION

This report is prepared pursuant to Connecticut General Statutes Section 12-7b, subsection (e). The term "tax expenditure" may appear to be a contradiction. "Tax" means money coming into the government; "expenditure" means money going out. How can money be coming in and going out at the same time?

With a tax expenditure, the money does not come in and go out again: it does not come in at all. The reason it does not come in is that the law has provided for an exemption, deduction, credit, reduced rate, or other mechanism which lowers the amount of tax revenue that would otherwise be collected.

A tax expenditure is similar to a direct expenditure in that it can be used to accomplish public policy goals. It may be enacted either to encourage a certain activity or to limit the tax burden on taxpayers in a certain situation. For example, government can attempt to encourage economic development directly by providing financial assistance to businesses through grants or indirectly through tax expenditures such as Corporation Tax credits or Sales Tax exemptions.

A tax expenditure is different from a direct expenditure in that it does not need to be re-enacted. Unless a sunset date is placed on a tax expenditure provision, it continues indefinitely (or until amended or repealed), whereas direct expenditures must be appropriated for each budget period.

Not only does a tax expenditure not require re-enactment, its fiscal impact is usually not reviewed after it becomes law. When net revenues are forecast, most tax expenditures have already been excluded from the base. Typically, the fiscal impact of an existing provision is not estimated unless a proposal is made to change or repeal it.

The purpose of this report is to provide information. No conclusions are drawn nor are recommendations made regarding whether a provision should be continued, repealed, expanded, or restricted.

Tax Expenditure Criteria

Seven criteria have been used to evaluate tax expenditure provisions for this report. Some of the criteria are concepts used in the preparation of federal tax expenditure reports and others are based on a logical application of the tax expenditure concept. A provision must generally meet the following criteria in order to be considered a tax expenditure.

A provision is a tax expenditure if it:

- has an impact on a tax that is applied statewide;
- confers preferential treatment;
- results in reduced tax revenue in the applicable fiscal years;
- is not an appropriation;
- is included in the definition of the tax base;
- is not subject to an alternative tax; and
- can be amended or repealed by a change in state law alone.

This report lists exemptions and exclusions from each state tax. **Exemptions** would otherwise be taxed but are exempted by specific legislative action. **Exclusions** are not taxed simply because they are not part of the base defined by the tax law.

The following seven categories are used to classify each exemption or exclusion according to the rationale which underlies it.

1. **Perceived Equity** - The tax expenditure was created to remedy a perceived inequity in tax burden.
2. **Efficiency** - The cost of adequately collecting and administering the tax is high in comparison to the potential revenue that could be gained from taxation.
3. **Incentive** - The expenditure is intended to encourage the performance of certain desirable activities such as economic growth and development, charitable or nonprofit work, or conservation of resources.
4. **Redundancy** - The entry is included in the base of one tax and excluded from the base of another to avoid over taxation. For example: The purchase of gasoline is subject to the motor fuels excise tax in lieu of the general sales and use tax.
5. **Clarification** - The entry clarifies the definition of what is taxable.
6. **Conformity** - The entry conforms the state statute with applicable constitutional and other federal requirements.
7. **Expediency** - Legislatures react to outside stimuli as does any organization or individual. Expenditures of this type violate one or more of the principles of a high-quality revenue system without any apparent counterbalancing or compensating precept. (Principles of a High-Quality State Revenue System, Second Edition, National Conference of State Legislatures, 1992).

Measuring the Fiscal Impact of Tax Expenditures

A summary table of major identifiable revenue reductions follows the Introduction.

This report estimates each provision in isolation, with other provisions in that tax and in other taxes held constant. The secondary impact of one provision over another provision is not taken into account. Because estimates measure the impact of the provision as it exists and not what would happen if it were repealed, no change in taxpayer behavior is assumed.

The precision of the estimates varies with the source of the data and with the applicability of the data to the tax expenditure provision. Data from Connecticut tax returns were used whenever possible. Other sources included federal tax expenditure estimates, data from federal tax returns, and other data for Connecticut and the nation. In some cases, because data was not available and resources were limited, an estimate of the expenditure could not be determined.

Unless otherwise noted, all revenue estimates presented in this report are effective for FY 2000. Differences between figures provided in this document and in previous versions of this document and other documents are generally due to revised data becoming available.

PERSONAL INCOME TAX

During the 1991 June Special legislative Session the General Assembly enacted Public Act 91-3 which imposed a tax on the income of resident individuals, trusts and estates, and on the income of nonresident individuals, trusts and estates derived from sources within the state, at a rate of 4.5% for the income years commencing on or after January 1, 1992. It should be noted that the Income Tax rate for 1991 was 1.5%. Specifically, the tax is levied on Connecticut taxable income which is defined as adjusted gross income for federal income tax purposes with certain modifications and exemptions.

Computation of Tax

Tax Basis - The tax is levied on Connecticut adjusted gross income (AGI) above basic personal exemption levels which vary according taxpayer status and phase-out at higher income levels. The basic exempted amounts for each taxpayer status are considered to be outside the generally accepted tax base. They reflect the notion that income needed for bare sustenance should be free from tax. Thus, for the purpose of this document, these exemptions are not listed as tax expenditures. In addition, taxpayers whose income fall below a specified level are entitled to "no tax status". For the same reason, this status is not listed as a tax expenditure.

Connecticut adjusted gross income (AGI) is defined as adjusted gross income for federal income tax purposes, subject to certain additions and deletions. Additions include such things as interest and dividends from obligations (such as bonds) from other states, or subdivisions of other states, unless federal law requires them to be exempt from state income taxes. The deletions include such things as (1) any income included in adjusted gross income that federal law exempts from state taxation, (2) the amount of refunds or credits for overpayments of income tax, (3) exempt dividends paid by a regulated investment company, and (4) tier one railroad retirement benefits. The deletion of moving expenses is eliminated, effective with the 1994 income year (PA 94-4 (MSS)).

For income years 1994 through 1997 the percentage of social security benefits which is included in state adjusted gross income is limited to the percentage that was taxable under the 1993 federal income tax rules (PA 94-4 May Special Session). Beginning with the 1998 income year, the amount of social security is reduced by one-half of the 50% or to 25% of benefits (PA 97-309 and PA 97-322). Beginning with the 1999 income year, PA 99-173 exempted the remaining 25% of Social Security Benefits from the State Income Tax for Joint filers with AGI under \$60,000 and Single Filers with AGI under \$50,000.

Special rules are established for determining whether the income of a nonresident or a part-year resident individual, a partner's distributive share of partnership income, a shareholder's pro rata share of S corporation or limited liability company (PA 93-267, effective 10/1/93) income and a beneficiary's share of trust or estate income is derived from sources within the state and how income gains, loss, and deductions are allocated.

The tax imposed on income earned by resident and nonresident trusts and estates is similar to the one applied to individuals except that the trusts and estates do not receive the exemptions and credits that individuals receive. The tax must be paid by the fiduciary. Special rules are established for determining what income is derived from sources within the state for nonresident and part-year resident estates, trusts and beneficiaries and how income, gains, loss and deductions are allocated.

Tax Rate - The tax is imposed on income of individuals, trusts and estates derived from sources within the state, at the rate of 1.5% for 1991 income years and 4.5% for 1992 and subsequent income years. The rate is reduced from 4.5% to 3.0% effective 7/1/96 for taxable income levels noted below (PA 95-160). The taxable income levels are increased for the 1997, 1998 and 1999 and subsequent income years as follows (PA 97-309 and PA 97-322).

Amount of Taxable Income taxed at 3%
Type of Filer

Income Year	Effective Date	Joint	Head of Household	Single
1996	7/1/96	\$ 9,000	\$ 7,000	\$ 4,500
1997	1/1/97	12,500	10,000	6,250
1998	1/1/98	15,000	12,000	7,500
1999 and after	1/1/99	20,000	16,000	10,000

Taxpayers are required to pay the higher of their liability under the state Personal Income Tax or the Connecticut Minimum Tax, effective 1/1/93 (PA 94-4 (MSS)). The Connecticut Minimum Tax is the lesser of 19% of Adjusted Federal Tentative Minimum Tax or 5% of adjusted federal alternative minimum taxable income.

Exemptions - An unmarried person prior to 1/1/2000 or a married person filing separately is entitled to a personal exemption of \$12,000. Beginning at an AGI of \$24,000, the exemption decreases by \$1000 for each \$1000 increase in AGI. There is no exemption if the taxpayer earns more than \$35,000. For the 2000 income year the personal exemption amount for unmarried persons is increased from \$12,000 to \$12,250. The personal exemption amount is raised over an eight year period subsequently to \$15,000 by the income year 2007 (PA 99-173). For income years beginning 1/1/2007 and thereafter the personal exemption will remain at \$15,000. There are adjustments to the phase-out schedule of the

personal exemption, the low income tax credit, and the phase-down of the property tax credit for higher income levels accordingly for each year.

For income year 2000 an unmarried person is entitled to a personal exemption of \$12,250. Beginning at an AGI of \$24,500, the exemption decreases by \$1000 for each \$1000 increase in AGI. There is no exemption if the taxpayer earns more than \$36,500. The low income credit for the 2000 income year is as follows (PA 99-173):

Taxpayers receive a tax credit for income taxes paid in another state or Canada.

Credits - For the 1996 income year a credit for up to \$100 is provided for personal and real property taxes paid on the filers' primary residence in state or a motor vehicle. The amount of credit claimed cannot exceed the filer's tax liability and may not be taken into account when calculating the amount of withholding or estimated payments due. The credit is effective beginning with taxes paid on the 10/1/95 grand list (PA 95-160).

PA 97-309 repealed the credit for property taxes paid on privately owned motor vehicles (PA 94-4 MSS) and in its place it increase the Property Tax Credit, for certain income levels, from the maximum \$100 to a maximum of \$215 effective for the 1997 income year and to a maximum of \$285 effective for the income year 1998 and thereafter. PA 98-110 increased the Property Tax Credit from the maximum \$285 to a maximum of \$350 effective for income year 1998 and thereafter. PA 99-173 increased the Property Tax Credit from the maximum of \$350 to a maximum of \$425 for income 1999 and to a maximum \$500 for income 2000 and there after. The credit is limited to two motor vehicles for joint filers and one motor vehicle for single, head of household, and married filing separate filers. The table below shows the credit.

PA 94-214 created a credit for investors in the Insurance Reinvestment Fund against the insurance premium tax, the corporate income tax, or the personal income tax. The Insurance Reinvestment Fund is established by this act to create new jobs by investing in CT companies engaged in the insurance business or providing services to insurance companies. The credit is equal to the following percentages of monies invested through a fund manager in a qualified insurance business: (a) 10% of the investment for tax year beginning 3 years after the date of investment to no later than 7 years after the date of investment, and (2) 20% of the investment for tax years beginning seven years and ending 10 years from the date of investment. PA 97-292 limits to \$15 million the amount of any tax credit that funds can take on any single business investment.

Payment - Employers are required to withhold taxes from wages based on the employee's estimated tax liability for the income year.

Taxpayers with taxable income from which no withholding has been made, must make quarterly estimated payments if their liability on the non-withheld income is expected to exceed \$500 beginning with their 1997 income year (PA 97-81). Prior to 1997 the limit was \$200. To avoid penalty, the taxpayer must pay as follows:

Personal Income Tax Estimated Payments		
	<u>Due</u>	<u>Pay the lesser of:</u>
1st	4/15	22.5% of current year or 25% of last year's liability
2nd	6/15	45% of current year or 50% of last year's liability
3rd	9/15	67.5% of current year or 75% of last year's liability
4th	1/15	90% of current year or 100% of last year's liability

An income tax return must be filed by the 15th day of the fourth month following the close of the taxpayer's taxable year. The tax due must be paid by that date whether or not a filing extension has been granted. S corporations and partnerships must file composite returns and make composite tax payments on behalf of some or all of their nonresident shareholders and partners.

In lieu of quarterly estimated payments, farmers and fishermen are permitted to make one estimated payment due on January 15th effective with the 1997 income year. Prior to 1997, farmers and fishermen were permitted to make two installment payments per income year on their estimated tax. Payments were due June 15th of the income year and January 15th of the following income year. Professional athletic teams are permitted to file composite returns for team members who are not state residents. The teams are also permitted to make estimated payments in lieu of withholding. (PA 97-286 and PA 95-263)

The interest rate for taxpayers is 1.0% per month on the unpaid tax. PA 95-263 reduced the interest rate from 1.25% to 1.0% effective 1/1/96. Penalty is 10% of the required payment. There are also penalties for failing to collect the tax and understating wages, and criminal penalties for failure to keep records or keeping fraudulent records.

State Exclusions--Connecticut Modifications

The Connecticut adjusted gross income of a resident, nonresident, and estates is defined as federal adjusted gross income with modifications as specified by CT General Statutes.

1. Interest on U. S obligations

Description: Interest income derived from U.S. government obligations, which interest income federal law prohibits states from taxing. For example: U.S. government bonds such as Savings Bonds Series EE and Series HH, U.S. Treasury bills and notes. Federal National Mortgage Association (Fannie Mae), Government National Mortgage Association (Ginnie Mae), and Federal Home Loan Mortgage Corporation (Freddie Mac) securities interest income is taxable for Connecticut income tax purposes.

Estimates: Between \$35 and \$50 million.

Rationale: Conformity.

2. Exempt Dividends from Mutual Funds Derived from U.S. Government Obligations.

Description: Dividends from certain mutual funds consisting of US Obligations. The mutual fund must have at least 50% of the value of its assets consisting of U.S. government obligations at the close of each quarter.

Estimates: Between \$1 and \$5 million.

Rationale: Conformity.

3. Refunds of state and local income taxes

Description: Taxable refunds of state and local income taxes reported on Line 10 of the federal Form 1040.

Estimates: Between \$15 and \$25 million.

Rationale: Redundancy.

4. Tier I Railroad Retirement benefits

Description: Tier I Railroad Retirement Benefits included in federal adjusted gross income in amounts greater than \$25,000 for single taxpayers and greater than \$32,000 for married taxpayers is deducted from Connecticut taxable income. Title 45 Section 231(m) of the United States Code prohibits states from taxing railroad retirement benefits.

Estimates: Less than \$500,000.

Rationale: Conformity.

5. Shareholder's Pro rata share of certain S Corporation Shareholder's Income

Description: Shareholders of S corporations which are subject to the Connecticut corporation business tax can deduct from Connecticut taxable income their pro rata share of the S corporation's non-separately computed income, if any.

This deduction limits state taxation of social security benefits to the amount which was taxable for federal purposes prior to the 1993 change, effective with the 1994 income year.

For income years 1994 through 1997 the percentage of social security benefits which is included in state adjusted gross income is limited to the percentage that was taxable under the 1993 federal income tax rules (PA 94-4 May Special Session). Beginning with the 1998 income year, the amount of social security is reduced by one-half of the 50% or to 25% of benefits (PA 97-309 and PA 97-322). Beginning with the 1999 income year, PA 99-173 exempted the remaining 25% of Social Security Benefits from the State Income Tax for Joint filers with AGI under \$60,000 and Single Filers with AGI under \$50,000.

Estimates: \$27 million FY 00.

Rationale: Expediency.

Taxpayers benefiting: 110,000

9. Other Deductions

Description: The following items are deductible in determining Connecticut adjusted gross income but not deductible in determining Federal adjusted gross income.

(a) Interest paid on indebtedness incurred to acquire investments that provide income which is taxable in Connecticut but not taxable for federal purposes, that is not deductible in determining federal adjusted gross income, and is attributable to a trade or business of that individual.

(b) Expenses paid or incurred for the production (including management, conservation, and maintenance of property held for production) or collection of income taxable in Connecticut but exempt from federal income tax, which were not deductible in determining federal adjusted gross income.

(c) Amortizable bond premium on bonds which provide interest income taxable in Connecticut but exempt from federal income tax, which premiums were not deductible in determining adjusted gross income.

Estimates: Between \$5 and \$10 million.

Rationale: Conformity.

SALES AND USE TAXES

The trend toward states enacting general sales taxes began in the 1930s and Connecticut became a sales tax state in 1947. As in other states, the relatively simple policy goal of the tax was to restore solvency to the state's treasury with a minimum of administrative problems and expense. To accomplish this, the tax was imposed on retail sales of tangible goods, which could be collected with relative ease. Since then, the tax has evolved into a complex structure with a lengthy list of taxable goods and services, and even lengthier list of items which are exempt.

Computation of Tax

Rate & Basis - Connecticut levies sales and use taxes on the gross receipts of retailers from the sale of tangible personal property and on the gross receipts from the rendering of certain business services. The treatment of services under the Sales and Use Tax differs fundamentally from the treatment of tangible personal property because sales of the latter are taxable unless specifically exempted, while sales of services are excluded unless enumerated under CGS Section 12-407(2)(i). The list of service exemptions under Item C are those that were explicitly subject to the tax and then repealed or were thought to be subject to the tax and it was clarified that they were not. On gross receipts from the sale, rental or leasing of tangible personal property, and rendering of certain business services the tax rate is 6%. On the rental of hotel rooms in a hotel or lodging house the tax rate is 12%.

The following six sections list exemptions and exclusions to the Sales and Use Tax, with the rationale and a brief legislative history for each. Estimates are for FY 00 unless otherwise indicated. Due to the nature of the Sales and Use Tax being a broad based tax as well as the fact that the seller collects and files the tax and not the ultimate consumer therefore the number of taxpayers benefiting is not included for this section.

A. Consumer Goods Exemptions

Food

1. Sales of food products for human consumption.

Description: "Food products" include cereals and cereal products, milk and milk products, oleomargarine, meat and meat products, fish and fish products, eggs and egg products, vegetables and vegetable products, fruit and fruit products, spices and salt, sugar and sugar products other than candy and confectionery; coffee and coffee substitutes, tea, cocoa and cocoa products other than candy and confectionery. "Food products" do not include spirituous, malt or vinous liquors, soft drinks, sodas or beverages such as are ordinarily dispensed at bars and soda fountains, or in connection therewith, medicines except by prescription, tonics and preparations in liquid powdered, granular, tablet, capsule, lozenge and pill form sold as dietary supplements or adjuncts. "Food products" also do not include meals sold by an eating establishment or caterer. "Meal" means food products which are furnished, prepared or served in such a form and in such portions that they are ready for immediate consumption. A meal as defined in this subsection includes food products which are sold on a "take out" or "to go" basis and which are actually packaged or wrapped. The sale of a meal, as defined in this subsection, is a taxable sale. "Eating establishment" means a place where meals are sold and includes a restaurant, cafeteria, grinder shop, pizzeria, drive-in, fast food outlet, ice cream truck, hot dog cart, vending machine, refreshment stand, sandwich shop, private or social club, cocktail lounge, tavern, diner, snack bar or hotel or boarding house which furnishes both lodging and meals to its guests. CGS Sec. 12-412(13).

Separate exemptions for food products and meals under \$1 were provided when the tax was first imposed. In 1971, take-out meals were excluded from the food products exemption and included in the meals under \$1 exemption. PA 83-18 repealed the exemption for meals under \$1. PA 84-415 clarified that meals served at eating establishments are not exempt from the tax. PA 86-397 added an

exemption for meals under \$2. PA 87-177 amended the food products exemption to provide that a meal under \$2 may include a nonalcoholic beverage which is not a food product. It also clarified the definition of a taxable meal. PA 89-251 repealed the exemption for meals under \$2. PA 98-110 removed vending machines from the definition of "eating establishments".

Estimates: \$260 million.

Repair or

replacement parts are exempt whether purchased separately or in conjunction with the item for which they are intended, and whether such parts continue the original function or enhance the functionality of such item. As used in this subdivision, "repair services" means services that are described in subparagraph (Q) or (EE) of subdivision (2) (i) of section 12-407. CGS Sec. 12-412(19).

The exemption has been in effect since the imposition of the tax. PA 76-390 added vital life support equipment. PA 77-46 replaced the word "crippled" with "handicapped." PA 79-33 added walkers. PA 93-74 added custom-made wigs, repairs to hearing aids and apnea monitors. PA 95-160 added repair services. PA 95-359 extended the exemption for oxygen, blood and blood plasma to animals as well as humans. PA 97-316 exempted oxygen supply equipment used for animals from the tax. For purposes of this subdivision clothing or footwear shall not include (A) any special clothing or footwear primarily designed for athletic activity or protective use and which is not normally worn except when used for the athletic activity or protective use for which it was designed and (B) jewelry, handbags, luggage, umbrellas, wallets, watches and similar items carried on or about the human body but not worn on the body in the manner characteristic of clothing intended for exemption under this subdivision. CGS Sec. 12-412(47).

An exemption for children's clothing was in effect when the tax was first imposed. The exemption for other types of clothing and footwear under \$50 was added by PA 85-3. PA 85-159 raised the limit to \$75. PA 91-3 eliminated the separate exemption for children's clothing and reduced the limit for all clothing and footwear to \$50.

Estimates: \$120 million.

Rationale: Perceived Equity.

2. Cloth or fabric purchased for noncommercial sewing.

Description: Any sale of cloth or fabric for purposes of noncommercial sewing, made of natural or synthetic fibers and of such composition, weight and texture as to be used commonly in clothing, and including in addition to such cloth or fabric, any items necessary in such sewing which become a component part of the clothing so made. CGS Sec. 12-412(52).

The exemption was created by PA 86-397.

Estimates: \$1.1 million.

Rationale: Perceived Equity.

3. Yarn.

Description: Any sale of yarn for noncommercial use made of natural or synthetic fibers. CGS Sec. 12-412(97).

The exemption was created by PA 97-316.

Estimates: Less than \$50,000.

Rationale: Perceived Equity.

Utilities

1. Fuel for heating purposes.

Description: Sales of fuel used for heating purposes (i) in any residential dwelling or (ii) in any building, location or premise utilized directly in agricultural production, fabrication of a finished product to be sold or an industrial manufacturing plant, provided the exemption under this subdivision (ii) shall only be allowed with respect to a building, location or premise in which not less than seventy-five percent of the fuel used in such building, location or premise is used for the purpose of such production, fabrication or manufacturing. CGS Sec. 12-412(16) and 12-412h.

The residential utilities portion has been in effect since the imposition of the tax. The manufacturing and agriculture provision was added by PA 89-251.

Estimates: \$90 to \$100 million.

Rationale: Perceived Equity as it relates to residential utilities. Incentive as it relates to manufacturing and agriculture, since the exemption is intended to reduce cascading.

2. Certain utilities sales.

Description: The subdivision presented below are part of CGS Sec. 12-412(3) and 12-412h.

(A) Gas and electricity for residential use and certain manufacturing or agricultural production. The sale, furnishing or service of gas, including bottled gas, and electricity when delivered to consumers through mains, lines, pipes or bottles for use (i) in any residential dwelling or (ii) directly in agricultural production, fabrication of a finished product to be sold or an industrial manufacturing plant, provided the exemption under this subdivision (ii) shall only be allowed with respect to a metered building, location or premise at which not less than seventy-five per cent of the gas, including bottled gas, or electricity consumed at such metered building, location or premise is used for the purpose of such production, fabrication or manufacturing. Bottled gas as used in this subsection means liquid propane gas.

(C) Water, steam and telegraph. The sale, furnishing or service of water, steam and telegraph when delivered to consumers through mains, lines, pipes or bottles.

(D) Monthly charges of one hundred fifty dollars or less for electricity not otherwise exempt. The sale or furnishing of electricity, not subject to the exemption under subparagraph (A) of this subsection, with respect to that portion of the charges applicable to such electricity for any month of service which is not in excess of one hundred fifty dollars.

(E) Gas, water, steam or electricity used in furnishing same to consumers. The sale, furnishing or service of gas, water, steam or electricity for use directly in the furnishing of gas, water, steam or electricity delivered to consumers through mains, lines or pipes.

An exemption for consumer sales of gas, water, electricity, telephone and telegraph services has been in effect since the imposition of the tax. PA 74-4 added bottled gas and community antenna television and cable services. PA 75-495 clarified that bottled gas is propane gas. PA 77-395 added sales of steam. PA 89-251 created the exemption in its present form.

Estimates: \$3 to \$5 million.

Rationale: Redundancy as it relates to residential utilities and water, steam and telegraph. Utility company gross receipts are taxable under the Utility Companies Tax at the rate of 4% for residential utilities, 5% for water and steam service and 4.5% for telegraph service. Incentive as it relates to

businesses. The manufacturing and agriculture exemption is intended to reduce cascading. The portion exempting charges under \$150/month is intended to reduce the cost of doing business for small firms.

3. Water Company Purchases.

Description: Sales of and the storage, use or other consumption of any personal property or any services to a water company, as defined in section 16-1, for use in maintaining, operating, managing or controlling any pond, lake, reservoir, stream, well or distributing plant or system employed for the purpose of supplying water to fifty or more customers. CGS Sec. 12-412(90). (This exemption is effective 7/1/96.)

Municipal water companies are exempt from the Sales Tax. The exemption was created by PA 94-4 of the May Special Session. PA 95-160 changed the effective date.

Estimates: \$4.0 million

Rationale: Perceived Equity.

Other Consumer Good Exemptions

1. Motor vehicle fuel.

Description: Gross receipts from the distribution of and the storage, use or other consumption in the state of motor vehicle fuel which is subject to the motor fuels tax. CGS Sec. 12-412(15).

Estimates: \$150 million.

Rationale: Redundancy. Motor vehicle fuel sales are subject to the Motor Fuels Excise Tax. Firms that sell petroleum products are subject to the Petroleum Companies Gross Receipts Tax, which includes sales of motor vehicle fuel. The exemption has been in effect since the imposition of the tax.

2. Fuel for use in certain high-occupancy commuter vehicles.

Description: Sales of and the storage, use or other consumption of any fuel with respect to which the tax imposed under chapter 221 has been refunded under subdivision (11) of subsection (a) of section 12-459. CGS Sec. 12-412 (37).

Estimates: Less than \$100,000.

Rationale: Incentive, the exemption is intended to encourage the use of multiple-occupancy commuter vehicles. Taxpayers who qualify for a Motor Fuels Excise Tax exemption and who apply for a refund, are subject to Sales Tax on the amount exempted from the excise tax. This exemption prevents taxpayers who qualify for the Motor Fuels Excise Tax exemption on high-occupancy commuter vehicle fuel from paying Sales Tax on their excise tax refund. It was created by PA 79-627 and amended by 82-25.

3. Newspapers and magazines.

Description: (A) Sales of magazines, including publications which only contain puzzles, by subscription; (B) sales of newspapers. CGS Sec. 12-412(6).

The exemption also clarifies that puzzle magazines are nontaxable. Magazine subscriptions have been exempt since the imposition of the tax. At that time all newspaper sales were exempt. PA 78-

172 clarified the exemption with regard to newspapers and PA 91-3 imposed the tax on newspapers sold over the counter. PA 94-4 of the May Special Session added the language regarding puzzle magazines. PA 98-110 extended the exemption to all sales of newspapers not just by subscription only.

Estimates: \$35 million.

Rationale: Efficiency/Clarification. It would be costly and difficult to collect revenue and audit tax records for out-of-state companies selling magazines and newspapers by subscription.

4. One cent vending machines. Vending machine sales of food products.

Description: (A) Sales of any items from one cent vending machines; or (B) sales of food products, as defined in subsection (13) of this section, sold through coin-operated vending machines. CGS Sec. 12-412(27).

The exemption was created by PA 74-263. PA 95-160 added food sold through coin-operated vending machines.

Estimates: \$1 million.

Rationale Efficiency: the amount of revenue which could be collected is considered too small to justify the administrative costs.

5. Property purchased from the United States.

Description: The storage, use or other consumption in this state of property purchased from any incorporated agency or instrumentality of the United States, except (a) any property reported to the Surplus Property Board of the United States or any successor thereto, as surplus property by any owning agency; and (b) any property included in any contractor inventory, is exempted from the use tax. "Surplus property", "owning agency", and "contractor inventory" as used in this section have the meanings ascribed to them in that act of the Congress of the United States known as the "Surplus Property Act of 1944". CGS Sec. 12-413(2).

The exemption has been in effect since the imposition of the tax.

Estimates: Indeterminate.

Rationale: Conformity: states are not permitted to levy taxes on the federal government under the US Constitution.

6. Purchase brought into state by resident.

Description: The use tax shall not apply to the purchase of any articles of tangible personal property which have been brought into this state on the person of a resident of this state when the purchase price of the same does not exceed twenty-five dollars; provided such purchase shall be for personal use or consumption in this state and not for use or consumption in carrying on a trade, occupation, business or profession. CGS Sec. 12-413(3).

The exemption has been in effect since the imposition of the tax.

Estimates: Indeterminate.

Rationale: Efficiency: the amount of revenue which could be collected is considered too small to justify the administrative costs.

7. Personal property used in burial or cremation with value up to two thousand five hundred dollars for any single funeral.

Description: Sales of tangible personal property by any funeral establishment performing the primary services in preparation for and the conduct of burial or cremation, provided any such property must be used directly in the performance of such services and the total amount of such exempt sales with respect to any single funeral may not exceed two thousand five hundred dollars. CGS Sec. 12-412(55).

The exemption was created by PA 86-397.

Estimates: \$3.5 million.

Rationale and History: Perceived Equity.

8. Vegetable seeds.

Description: Sales of vegetable seeds suitable for planting to produce food for human consumption. CGS Sec. 12-412(96)

The exemption was created by PA 97-316.

Estimates: Less than \$100,000.

Rationale: Perceived Equity.

9. Firearm Safety Devices

Description: Sales of and the storage, use or other consumption of firearm safety devices. For purposes of this subdivision, "firearm safety devices" shall include safes, lock boxes, trigger and barrel locks and other items designed to enhance home firearm safety. CGS Sec. 12-412(101)

The exemption was created by PA 99-173

Estimates: \$100,000

Rationale: Incentive.

10. Bicycle Helmets

Description: Sales of and the storage, use or other consumption of bicycle helmets. For the purposes of this subdivision, "bicycle" means any vehicle propelled by the person riding the same by foot or hand power and "helmet" means protective headgear which conforms to the minimum specifications established by the American National Standards Institute or the Snell Memorial Foundation's Standard for Protective Headgear for Use in Bicycling. CGS Sec. 12-412(102)

The exemption was created by PA 99-173.

Estimates: \$200,000

Rationale: Incentive.

11. Campground rentals

Description: Campground rentals (does not appear in statutory language)

Campground rentals were made taxable by PA 92-184, effective 7/1/93 and were excluded from the tax by PA 93-74 and PA 93-332, effective 7/1/93.

Estimates: Less than \$100,000.

Rationale: Incentive: The exclusion is intended to reduce cascading.

12. Lodging

Description: (a) Privately owned and operated convalescent homes, residential care homes, homes for the infirm, indigent or chronically ill; (b) religious or charitable homes for the aged, infirm, indigent or chronically ill; (c) privately owned and operated summer camps for children; (d) summer camps for children operated by religious or charitable organizations; (e) lodging accommodations at educational institutions; or (f) lodging accommodations at any facility operated by and in the name of any nonprofit charitable organization, provided the income from such lodging accommodations at such facility is not subject to federal income tax.. CGS Sec. 12-407(17).

PA 90-186 added lodging accommodations operated by nonprofit organizations.

Estimates: Less than \$100,000

Rationale: Expediency.

B. Business and Agricultural Exemptions

The word "machinery" as used in this subsection means the basic machine itself, and includes all of its component parts and contrivances, such as belts, pulleys, shafts, moving parts, operating structures and equipment or devices, which component parts and contrivances are used or required to control, regulate or operate the machinery or to enhance or alter its productivity or functionality, whether such component parts and contrivances are purchased separately or in conjunction with such machine and all replacement and repair parts for the basic machine or for its component parts and contrivances, whether such replacement or repair parts are purchased separately or in conjunction with such machine. For the purposes of this subsection, "machinery" includes machinery used exclusively to control or monitor an activity occurring during the manufacturing production process and machinery used exclusively during the manufacturing production process to test or measure materials and products being manufactured but shall not include office equipment or data processing equipment other than numerically controlled machinery used directly in the manufacturing process. CGS Sec. 12-412(34).

It was created by PA 78-71. PA 89-123 removed references to agricultural production which were included in a separate subsection, (63), created by that act. PA 94-4 of the May Special Session specified "machinery" is limited to equipment directly related to manufacturing processes. PA 98-110 added the exclusion of component parts and contrivances whether purchased separately or in conjunction with a machine.

Estimates: \$125 million.

Rationale: Incentive: the exemption is intended to reduce cascading.

2. Component parts for assembly of manufacturing machinery.

Description: The sale of any part of a machine purchased exclusively for the purpose of assembling a machine for use directly in a manufacturing production process, provided the purchaser submits a certified statement at the time of such purchase, on a form prepared by the commissioner of revenue services, certifying that such part is purchased exclusively for use in a machine to be assembled by the purchaser, or someone acting on behalf of the purchaser, and that such machine shall be used directly in a manufacturing production process. The purchaser shall prepare a record of the use of such part which shall be maintained by the purchaser for a period of not less than three years following the date of purchase. CGS Sec. 12-412(73).

Sales of and the storage or use of materials, tools and fuel or any substitute therefor, when such products are used directly in the furnishing of power to an industrial manufacturing plant or in the furnishing of gas, water, steam or electricity when delivered to consumers through mains, lines or pipes. CGS Sec. 12-412(18).

It has been in effect since the imposition of the tax and was amended in 1959 to include a definition of "machinery." PA 73-288 deleted references to "consumption." PA 89-123 created a separate subsection (63) for agricultural production.

Estimates: \$10 million.

Rationale: Incentive: the exemption is intended to reduce cascading.

4. Partial exemption for materials, tools, fuels, machinery and equipment used in manufacturing.

Description: CGS Sec. 12-412i. (a) The taxes imposed by this chapter shall not apply to the percentage set forth in subsection (c) of this section of the gross receipts from the sale of and the storage, use and consumption in this state of the following items: (1) Materials, tools and fuels or any substitute therefor which become an ingredient or component part of tangible personal property to be sold or which are used or consumed in an industrial plant in the manufacturing, processing or fabricating of products to be sold, in any process preparatory or related thereto or in the measuring or testing of such products or (2) machinery and equipment which will be used primarily in the process of manufacturing, processing or fabricating tangible personal property if: (A) The machinery or equipment is used for research and development, measuring or testing with respect to or in furtherance of the manufacturing, processing or fabricating of tangible personal property; (B) the machinery or equipment is used at any stage of the manufacturing, processing or fabricating process from the time any raw materials are received to the time the product is ready for delivery or storage, including overpacking and crating; (C) the machinery or equipment is used primarily to maintain or repair any machinery or equipment described in subparagraph (A) or (B) of this subdivision, or (D) the

(d) The burden of proving that an item is subject to the exemption set forth in this section is upon the person who makes the sale unless he takes from the purchaser a certificate to the effect that the property is subject to such exemption. The certificate relieves the seller from the burden of proof only if taken in good faith by the seller. The certificate shall be signed by and bear the name and address of the purchaser. The certificate shall be substantially in such form as the commissioner prescribes. (e) If a purchaser who gives a certificate makes any use of the property other than the purposes set forth in this section, the use shall be deemed a use by the purchaser in accordance with this chapter, as of the time the property is first used by him, and the property shall be taxable to such purchaser in accordance with this chapter.

(A) Sales of any of the services enumerated in subdivisions (2) (i), (2) (k) or (2) (l) of section 12-407 that are rendered for a business entity affiliated with the business entity rendering such service in such manner that (i) either business entity in such transaction owns a controlling interest in the other business entity, or (ii) a controlling interest in each business entity in such transaction is owned by the same person or persons or business entity or business entities. (B) For purposes of this subdivision, (i) "business entity" means a corporation, trust, estate, partnership, limited partnership, limited liability partnership, limited liability company, single member limited liability company, sole proprietorship and nonstock corporation; (ii) "controlling interest" means, in the case of a business entity that is a corporation, ownership of stock possessing one hundred per cent of the total combined voting power of all classes of stock entitled to vote or one hundred per cent of the total value of shares of all classes of stock of such corporation; in the case of a business entity that is a trust or estate, ownership of a beneficial interest of one hundred per cent in such trust or estate; in the case of a business entity that is a partnership, limited partnership or limited liability partnership, ownership of one hundred per cent of the profits interest or capital interest in such partnership, limited partnership or limited liability partnership; in the case of a limited liability company with more than one member, ownership of one hundred per cent of the profits interest, capital interest or membership interests in such limited liability company; in the case of a business entity that is a sole proprietorship or single member limited liability company, ownership of such sole proprietorship or single member limited liability company; in the case of a business entity that is a nonstock corporation with voting members, control of one hundred per cent of all voting membership interests in such corporation; and in the case of a business entity that is a nonstock corporation with no voting members, control of one hundred per cent of the board of directors of such corporation; (iii) whether a controlling interest in a business entity is owned shall be determined in accordance with Section 267 of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as from time to time amended, provided where a controlling interest is owned in a business entity other than a stock corporation, the term "stock" as used in said Section 267 of the Internal Revenue Code means, in the case of a partnership, limited partnership, limited liability partnership or limited liability company treated as a partnership for federal income tax purposes, the profits interest or capital interest in such partnership, in the case of a business entity that is a trust or estate, the beneficial interests in such trust or estate, and in the case of a business entity that is a nonstock corporation, the voting membership interests in such corporation, or if it has no voting members, the control of the board of directors; (iv) a business entity has "control of" the board of directors of a nonstock corporation if one hundred per cent of the voting members of the board of directors are either representatives of, including ex-officio directors, or persons appointed by such business entity, or "control of" one hundred per cent of the voting membership interests in a nonstock corporation if one hundred per cent of the voting membership interests are held by the business entity or by representatives of, including ex-officio members, or persons appointed by such business entity. CGS Sec. 12-412(62) and 12-412f.

Estimates: \$12 million.

Rationale: Incentive/Clarification. Incentive because the exemption is intended to reduce cascading. Enumerated services, as defined in CGS 12-407(2), are taxable when provided by one unaffiliated business entity to another, but nontaxable when divisions of a single entity provides these services for

internal use. The exemption provides horizontal equity for firms which are organized into a parent company with wholly-owned subsidiaries, rather than divisions. Clarification because it was created in response to efforts by the Department of Revenue Services (DRS) to tax the services. Prior to 1986 DRS did not view them as taxable even though they were not specifically exempted in statute. DRS's policy changed in 1986, which resulted in passage of PA 87-1. The act exempted the services but this exemption was to be sunsetted 6/30/88. PA 88-307 deleted the sunset date. PA 99-173 expands the exemption to include sales between businesses, other than corporations, where the same interest owns 100% of each business. It also exempts telecom services and CATV services rendered between patent companies and wholly-owned subsidiaries.

7/1/98	4%
7/1/99	3%
7/1/00	2%
7/1/01	1%
7/1/02	eliminated

It was enacted by PA 94-4 of the May Special Session. PA 95-160 delayed the effective date of the phase-out of the tax. PA 97-243 added the exemption to the use tax.

Estimates: \$43.5 million in FY 00, \$94.7 million when fully exempted.

Rationale: Incentive: the phase out is intended to reduce cascading.

Rationale: Incentive: the exemption is intended to make instate businesses more competitive with those out of state.

6. Payment of sales or use tax to another state.

Description: If any service or article of tangible personal property has already been subjected to a sales or use tax by any other state or political subdivision thereof and payment made thereon in respect to its sale or use in an amount less than the tax imposed by this chapter, the provisions of this chapter shall apply, but at a rate measured by the difference, only, between the rate herein fixed and the rate by which the previous tax upon the sale or use was computed. If such tax imposed in such other state or political subdivision thereof is equivalent to or in excess of the rate imposed under this chapter at the time of such sale or use, then no tax shall be due on such article. CGS Sec. 12-430(5).

The provision was added to the statutes prior to 1961.

Estimates: Indeterminate.

Rationale: Conformity: double taxation may violate the Interstate Commerce Clause of the US Constitution.

7. Casual or isolated sales.

Description: (a) Since the tax is predicated upon a sale made by a person engaged in the business of making sales at retail, certain sales which are not sufficient in number, scope and character to constitute an activity requiring a seller's permit are described as casual or isolated sales. Such sales are exempt from the tax exempt, however, as they involve vessels, airplanes, snowmobiles and motor vehicles as hereinafter illustrated. (b) Casual sales are: (1) Infrequent sales of a nonrecurring nature made by a person not engaged in the business of selling tangible personal property; (2) Sales of articles of tangible personal property acquired for use or consumption by a seller and not sold in the regular course of business engaged in by such seller. DRS regulation 12-426 (17).

The exemption is a regulation adopted by the Department of Revenue Services as authorized by CGS Section 12-426(1).

Estimates: Less than \$500,000.

Rationale: Efficiency: the amount of revenue which could be collected is considered too small to justify the administrative cost.

8. Tax on casual sales of motor vehicles, vessels, snowmobiles and aircraft.

Description: (a) In case of the purchase of any motor vehicle, snowmobile, vessel or aircraft other than from a licensed motor vehicle dealer or licensed motor vehicle lessor, a snowmobile dealer, a licensed marine dealer or a retailer of aircraft, respectively, the receipts therefrom shall not be included in the measure of the sales tax, but the purchaser thereof shall pay a use tax on the total purchase price thereof to the Commissioner of Revenue Services, as provided in section 12-411, in the case of tangible personal property purchased from a retailer, and, in the case of motor vehicles, vessels and snowmobiles, before obtaining an original or transferal registration, in accordance with regulations prescribed by the Commissioner of Revenue Services and on forms approved by the Commissioner of Revenue Services and the Commissioner of Motor Vehicles, and, in the case of aircraft, before obtaining an original or transferal registration, in accordance with regulations prescribed by the Commissioner of Revenue Services and on forms approved by the Commissioner of Revenue Services and the Commissioner of Transportation; provided no use tax shall be payable in cases of purchase (1) when the purchaser is the spouse, mother, father, brother, sister or child of the seller, (2) when a motor vehicle or vessel is sold in connection with the organization, reorganization or liquidation of an incorporated business, provided (A) the last taxable sale or use of the motor vehicle or vessel was subjected to a tax imposed by this chapter, (B) the purchaser is the incorporated business or a stockholder thereof, and (C) any gain or loss to the seller is not recognized for federal income tax purposes under the provisions of the Internal Revenue Code and Treasury regulations and rulings issued thereunder, (3) when a motor vehicle is sold in connection with the organization or termination of a partnership or limited liability company, provided (A) the last taxable sale or use of the motor vehicle was subjected to a tax imposed by this chapter, (B) the purchaser is the partnership or limited liability company, as the case may be, or a partner or member, thereof, as the case may be, and (C) any gain or loss to the seller is not recognized for federal income tax purposes under the provisions of the Internal Revenue Code and Treasury regulations and rulings issued thereunder, or (4) when a motor vehicle which has been declared a total loss pursuant to the provisions of section 14-16c is rebuilt for sale or use, provided the purchaser was subjected to the tax imposed by this chapter for the last taxable sale of said vehicle. CGS Sec. 12-431(a).

The section was created prior to 1957 and was subsequently amended several times.

Estimates: \$2 million.

Rationale: Expediency/Clarification. Expediency with regard to transfers to family members. Clarification with regard to business-related transfers.

9. Mobile manufactured home, modular or prefabricated home subject to sales tax when sold by manufacturer and subject to tax as a conveyance of realty when sold at its location in a mobile manufactured home park.

Description: (a) On or after July 1, 1986, the sale of a new mobile manufactured home, and on or after July 1, 1993, the sale of a new modular or prefabricated home, from a manufacturer shall be subject to sales and use taxes under this chapter, except that for purposes of said taxes the sales price of such new mobile manufactured home or new modular or prefabricated home shall be deemed to be seventy per cent of the manufacturer's sales price applicable with respect to such sale. For the purpose of this subsection, "mobile manufactured home" means a home at least twelve feet in width, which cannot proceed under its own power, which is towed or placed on flatbed trucks to be taken to its destination and which requires a limited duration oversize load permit in order to be transported on the highways of this state, and a "new modular or prefabricated home" means a modular or prefabricated home, as defined in section 21-85, which has not been previously sold or occupied as a dwelling unit.

(b) On or after July 1, 1986, the resale of any mobile manufactured home located in a mobile manufactured home park licensed pursuant to chapter 412 or located on a single-family lot as a permitted nonconforming use or as otherwise permitted by the zoning regulations of the municipality in which the home is located, and on or after July 1, 1993, the resale of any modular home, shall be exempt from the sales and use taxes imposed by this chapter and shall be taxed as a conveyance of realty in accordance with the provisions of chapter 223.

CGS Sec. 12-412c.

The resale exemption was created by PA 85-512 and the 30% exemption was created by PA 86-310. PA 93-332 added new modular or prefabricated homes.

Estimates: Less than \$500,000

Rationale: Clarification/Redundancy. Clarification as it relates to 30% of a new unit's price. Sales Tax is due on the tangible personal property used in new home construction but not on the cost of labor. The 30% exemption represents the approximate labor cost for this type of dwelling. Redundancy as it relates to resale of mobile homes. The exemption prevents the double taxation of such transactions since they are subject to the Real Estate Conveyance Tax.

F. Items subject to a lower Sales Tax Rate or Basis

1. Motor vehicles sold to members of the armed forces.

Description: Motor vehicles sold to members of the armed forces on full-time active duty in the state but whose permanent residence is elsewhere (4.5%). CGS Sec. 12-408(1)(B) and 12-411(1)(B).

It was created by PA 84-545.

Estimates: Less than \$100,000.

Rationale: Incentive: the lower rate is intended to encourage military personnel to buy and register their motor vehicles instate.

2. Sale of vessels to nonresidents at the lower of CT or resident's home state.

Description: With respect to the sales of vessels to any resident of another state, the rate shall be the lesser of: (i) Six per cent of the gross receipts of any retailer from such sales or (ii) the percentage of such gross receipts that is payable as a sales tax by retailers engaged in business in the purchaser's state of residence provided such retailer requires and maintains an affidavit or other evidence, satisfactory to the commissioner of revenue services, concerning the purchaser's state of residence. CGS Sec. 12-411(1)(C).

It was created by PA 91-3 of the June Special Session. PA 92-17 changed proof of the purchaser's state of residency to a signed affidavit rather than registration of the boat in the purchaser's home state.

Estimates: Less than \$500,000.

Rationale: Incentive: the exemption is intended to make instate businesses more competitive with those out of state.

3. Determination of sales tax on certain construction equipment or machinery when such equipment or machinery is traded in on purchase.

Description: In any sale at retail of construction equipment or machinery, the source of power for which is an integral part of any individual unit of such equipment or machinery, which sale is made by a retailer of such equipment or machinery who accepts a trade-in of such equipment or machinery in such sale, the sales tax with respect to such sale shall not be applicable to the entire purchase price of such equipment or machinery but shall be imposed on the difference between such purchase price and the amount allowed by the retailer on such equipment or machinery traded in as a credit against the entire purchase price of such equipment or machinery purchased. When any such equipment or machinery traded in is subsequently sold to a consumer or user, the tax imposed under this chapter shall be applicable to such sale. CGS Sec. 12-430a.

It was created by PA 85-457.

Estimates: Less than \$500,000.

Rationale: Incentive: The exemption is intended to make instate businesses more competitive with those out of state.

4. Trade-in of motor vehicles, snowmobiles, vessels or farm tractors.

Description Where a trade-in of a motor vehicle is received by a motor vehicle dealer, upon the sale of another motor vehicle to a consumer, or where a trade-in of an aircraft, as defined in subdivision (5) of section 15-34, is received by an aircraft dealer, upon the sale of another aircraft to a consumer, or where a trade-in of a farm tractor, snowmobile or any vessel, as defined in section 15-127, is received by a retailer of farm tractors, snowmobiles or such vessels upon the sale of another farm tractor, snowmobile or such vessel to a consumer, the tax is only on the difference between the sale price of the motor vehicle, aircraft, snowmobile, farm tractor or such vessel purchased and the amount allowed on the motor vehicle, aircraft, snowmobile, farm tractor or such vessel traded in on such purchase. When any such motor vehicle, aircraft, snowmobile, farm tractor or such vessel traded in is subsequently sold to a consumer or user, the tax provided for in this chapter applies. CGS Sec. 12-430(4).

It was added to the statutes prior to 1961. In 1961 it was limited to Connecticut motor vehicle dealers. In 1969 snowmobiles were added and references to instate dealers were deleted. PA 73-518 added vessels. PA 74-338 made a technical change. PA 94-4 of the May Special Session added the exemption for aircraft trade-ins.

Estimates: \$40 million.

Rationale: Incentive: the exemption is intended to make instate businesses more competitive with those out of state.

5. Coupons and Discounts and Battery Deposits and Trade Ins of like kind.

Description: Coupons and Discounts and Battery Deposits and Trade Ins of like kind are excluded from the definition of "sales price" and "gross receipts". CGS Secs. 12-407(8) and 12-407(9).

PA 98-110 added coupons and discounts, battery deposits and trade-ins of like kind, effective 7/1/98.

Estimates: \$2.5 million.

Rationale: Expediency.

6. Trade in of Core Parts

Description: In any sale at retail of any new or remanufactured part of an item of tangible personal property to a purchaser, which sale is made by a retailer of such parts who will accept in return from such purchaser a core component or core part of such tangible personal property, the sales or use tax with respect to such sale shall be imposed on the difference between the purchase price and the amount allowed by the retailer on the returned core component or core part, provided the retailer shall collect the tax, at the time of sale, on the purchase price and, when the core component or core part is returned, shall refund such tax on the amount allowed by the retailer on the returned core component or core part. When any such core component or core part traded in is subsequently sold to a consumer or user, the taxes imposed under this chapter shall be applicable to such sale. CGS Sec. 12-412j.

PA 95-327 created the exemption. PA 96-172 expanded exemption to motor bus parts. PA 98-110 clarified when the tax must be collected by the retailer.

Estimates: \$1.2 million.

Rationale: Expediency.

7. Licensed motor vehicle dealers.

Description: When a licensed motor vehicle dealer replaces a motor vehicle which has been registered to such dealer and the replaced motor vehicle is no longer in the possession of or used by such dealer, the tax imposed by this chapter shall be applicable only with respect to the difference between such dealer's cost for the new motor vehicle being registered, which motor vehicle is the replacement for said replaced motor vehicle, and the wholesale value of said replaced motor vehicle at the time of its replacement, determined in accordance with a standard reference book for such values acceptable to the commissioner of revenue services. CGS Sec. 12-430(6).

It was created by PA 73-520.

Estimates: Less than \$500,000.

Rationale: Incentive: the exemption is intended to reduce the cost of doing business for instate firms. It parallels the exemption for consumers (above), which permits trade-in allowances to be deducted from the purchase price of motor vehicles.

CORPORATION BUSINESS TAX

A tax is imposed on corporations for the privilege of carrying on business within the State or owning or leasing property or maintaining an office within the state.

Computation of Tax

Corporations are subject to tax on income derived from in-state sources.

Rate & Basis - The Corporation Business Tax consists of three components. The taxpayer's liability is the greatest amount computed under any of the three components. The three bases for most corporations are:

1. **Net Income Base:** This component is a tax measured by the net income of a taxpayer. Net income means federal income less certain deductions as those allowed under the Internal Revenue Service Code of 1986 as amended from time to time. The tax rate on net income is 8.5% for income year beginning on and after January 1, 1999 and 7.5% for income years beginning on or after January 1, 2000. (CGS Sec 12-214(a)(1), PA 93-74 and PA 95-160)

A Corporation taxable solely within the state multiplies its entire net income by the tax rate. Business income when derived from the manufacture, sale, or use of tangible personal property is apportioned by a three factor formula that compares sales, payroll and tangible property in Connecticut to those factors from business carried on everywhere else. The sales factor is given a double weight. Motor Carriers which transport property for hire apportion net income based on the relative number of miles driven in state. The apportioned net income is then multiplied by the tax rate.

Business income derived from services is apportioned based on a single gross receipts factor which compares gross receipts from businesses carried on within Connecticut to the nation.

Companies providing management, distribution, or administrative services to or on behalf of a regulated investment company (mutual fund) or a securities brokerage firm have the option to base their tax liability on the proportion of shares in the fund owned by shareholders domiciled in Connecticut, and in the case of securities brokerage service companies to base their tax liability on the proportion of commissions and margin interest paid to accounts owned by clients domiciled in Connecticut. (CGS 12-218)

If the corporation is a bank which issues credit cards and regularly engages in credit card activities, net income derived from credit card activities may base its tax liability on the proportion of receipts derived from credit card holders located within Connecticut. (PA 97-4 (JSS))

2. **Capital Base:** The capital base tax is .0031 or 3 1/10 mills per dollar of the average value of capital stock and surplus reserves (CGS Sec. 12-219). For income years beginning on or after January 1, 1999, financial service companies are excluded from the capital base and minimum tax. Corporations doing business in more than one state must use a two factor formula which measures the average monthly value of intangible and tangible assets located in Connecticut as compared to the nation to apportion their asset base (CGS 12-219a&b). The maximum tax liability under this base is \$1 million.
3. **Minimum Tax:** If a corporation owes less than \$250 under both the net income and capital base methods, it pays the minimum tax of \$250. (CGS 12-219, 12-223c)

Combined Returns: Corporations filing combined returns are not be entitled to the first \$25,000 of tax savings over what they would have paid if they filed separately (CGS 12-223f).

Subchapter S Corporations

PA 96-175 phases out the Corporate Income Tax on the net income of Subchapter S Corporations by reducing the percentage which is taxable until it is exempt in the 2001 income year. The tax is on 55% of net income for the 1999 tax year, 30% for 2000 and zero for 2001 and thereafter. (CGS 12-217(c))

Limited Liability Corporations

PA 93-267 created a new form of business that combines the limited liability characteristics of corporations with the tax status of partnerships, effective October 1, 1993. The Internal Revenue Service (IRS) has indicated that limited liability companies (LLC) that possess certain characteristics would be treated as partnerships for federal tax purposes. The test whether a business organization is an LLC or a corporation is the same test the IRS uses to distinguish partnerships from corporations. The IRS will not treat a business organization that has associates and a profit motive as a corporation if it has at least three of the following corporate characteristics: limited liability, continuity of life, free transferability of interest, and centralization of management.

PA 97-70 authorized single-member limited liability companies and allows an assignee of a single-member LLC to become a member if and to the extent the member gives him this right.

Unrelated Business Income Tax (Nonprofit Corporations)

Nonprofit corporations with income from businesses unrelated to their nonprofit status are subject to tax on income derived from in-state sources at the same rate as the tax on the net income of regular corporations. All business income is apportioned by a three factor formula which compares sales, compensation and tangible property in Connecticut to sales, compensation, and tangible property both inside and outside of Connecticut.

Payment - If the tax liability is expected to be more than \$1,000, or the tax required to be paid in the preceding year exceeded \$1,000, then the taxpayer is obligated to declare and pay estimated payments. Estimated payments are based on current year estimated annual tax liability using the following percentages: 30% in the third month, 70% in the sixth month, 80% in the ninth month, and 100% by the twelfth month of the income year, or 100% of the prior year's estimated tax payment.

The final payment of the tax is due by the first day of the fourth-month following the end of the income year. The minimum estimated payment is \$100 (CGS Sec. 12-242c).

The interest rate on overdue or underpayment of estimated tax is 1% per month or 12% per year.

3. Net Operating Loss Carry-Forward

Description: Net operating losses incurred in the current year may be carried forward for up to 5 years to offset net income in future years. Federal law allows losses to be carried forward 15 years or carried back three years. This treatment, known as a loss carry-forward, acts to smooth out fluctuations in corporate profits which may change dramatically with economic conditions. Similar to federal law, prior year losses must be applied against income to the maximum extent possible and in a consecutive fashion during the carryover period. Losses from earliest years are always used first. (CGS Sec. 12-217)

PA 99-173 extends the Net Operating Loss provisions from 5 years to 20 years resulting in additional revenue foregone of \$6 million in FY 06 to \$55 million in FY 11.

Estimates: \$50 million.

Rationale: Conformity.

Taxpayers benefiting: All net income corporate filers.

4. Net Capital Loss Carry-Over

Taxpayers benefiting: 10

State Corporation Business Tax Credits

The following are credits which a corporation may take advantage to reduce its tax liability to the State.

1. Enterprise Zones

Description: Connecticut General Statutes '32-70 designates the establishment of the state's Enterprise Zones. The zone itself consists of a census tract or several contiguous tracts within a community. In order for a community to be eligible to establish an Enterprise Zone it must meet certain criteria related to social and economic conditions. Primary census tracts must meet at least one of the following: (1) a poverty rate of at least 25%, (2) an unemployment rate of two times the state average, and (3) at least 25% of the tract's population receives public assistance. Secondary census tracts must meet lower thresholds: (1) a poverty rate of 15%, (2) an unemployment rate of at least 1.5 times the state average, and (3) at least 15% of the tract's population receiving public assistance.

Eligible businesses include manufacturers, warehouse distributors (new construction/expansion only), and certain designated service related businesses. Benefits include: A 5-year, 80% abatement of local property taxes on all qualifying real and personal property that are new (note: existing real property which meets certification requirements is defined as new for the purpose of this program) to the Grand List of the City/Town as a direct result of a business expansion or renovation project; 10-year, 25% or 50% credit on that portion of the Connecticut Corporate Business Tax that is directly attributable to this business expansion or renovation project as determined by the Connecticut Department of Revenue Services and as provided under section 12-217(e) of the Connecticut General Statutes. \$750 for each new full-time permanent job created with a minimum of 3 jobs; if the criteria described in the paragraph below are met, the amount of the

grant increases to \$2,250 per job. The maximum amount of the grant is \$75,000. The actual grant amount is determined by an audit of the number of permanent full time positions created as a direct result of a project. These positions must be in existence a minimum of three months, and must be created within twenty-four months from the inception of hiring for a certified project. The actual timing of the grant payment is subject to the availability of funds in the job incentive account within the General Fund of the State of Connecticut. In order to qualify for the increased benefits identified in (b) above, at least 30% of the new employees must be residents of the Enterprise Zone or residents of the Municipality in which the plant is located and eligible under the Federal Job Training partnership Act (JTPA). To be eligible for the increased benefits identified in (c), the minimum is 50% meeting such criteria. The Connecticut Department of Labor Job Service office is the contact concerning the availability of JTPA eligible job applicants in each community.

Also, within a zone, residential and commercial property owners are eligible by ordinance for the fixing of assessments on all real property in such zone for improvements made to their properties which are improved during the period when such area is designated as an Enterprise Zone. The fixed assessment will be for a period of seven years from the time of such improvement and shall defer any increase. Deferral on increased assessment due to improvement: 100% deferred in years 1 & 2, 50% in year 3, then declining 10% per year through year 7. These benefits are provided at the local level.

Any business which gets a Department of Economic Development eligibility certificate and is located in an enterprise zone, may receive a credit of 50% of its allocable tax if (1) it creates at least 150 jobs or (2) at least 30% of its newly created jobs are held by enterprise zone residents or municipal residents who are eligible for federal Job Training Partnership Act training. If the credit exceeds tax liability, the remaining credit may be taken in any of nine successive years. PA 93-311 allows towns with Enterprise Zones to establish Entertainment Districts for businesses involved in providing live or broadcast entertainment, and provides for tax benefits that are similar to Enterprise Zone businesses. This credit is available for income years beginning on or after 1/1/93. (CGS Sec. 32-70)

PA 95-354 expanded the definition of a manufacturing facility located within an Entertainment District to include plant, building, or other real property that is used in production of certain entertainment products.

Estimates: \$600,000

Rationale: Incentive and Perceived Equity.

Taxpayers Benefiting: 50

2. New Manufacturing Facilities Located Within Enterprise Zones

Description: Manufacturing facilities in high unemployment areas and distressed municipalities, under sections 32-9p and 32-9r, receive a 50% tax credit on the tax allocable to manufacturing facility. In order to be eligible to take this credit, the Commissioner of Economic Development must certify that the corporation is occupying a new or renovated facility located within an enterprise zone. Should the corporation's credit exceed its tax liability, the remaining credit may be carried forward for nine years. (CGS Sec. 12-217e)

Estimates: \$2.0 million.

Rationale: Incentive and Perceived Equity.

INHERITANCE AND ESTATE TAXES

Inheritance, Estate and Generation-Skipping Transfer Taxes

Death taxes (often called succession taxes) are excise taxes levied on the transfer of wealth at the time of death. There are two types of death taxes, an estate tax which is a tax on the total value of an estate, and the inheritance tax which is a levy on the separate shares of an estate passed to beneficiaries.

INHERITANCE TAX

The Connecticut Succession Tax was the first tax universally applied to all residents and property owners within the state in 1889. From 1889 to the late 1930s, the tax evolved into its present form. It has not changed greatly from the 1930s.

The succession tax is an inheritance tax that is applied to all real and tangible personal property inherited in the state and all intangible personal property inherited without regard to location. For nonresidents the tax base is all real and tangible personal property located in the state. The tax is a death tax based on the value at the time of death of the net taxable estate distributed to certain classes of beneficiaries.

Classification of Inheritors		
Class	Description	Amount Exempt 1999 Income Year
AA	Surviving spouse	Exempt
A	Immediate family such as parents or children	\$800,000
B	Other relatives including siblings, nieces, and nephews	\$200,000
C	All others including charitable organizations	\$1,000

The net taxable estate consists of the gross value of estate assets less certain allowable deductions. Although the Connecticut inheritance tax is based on the value of the assets distributed to certain classes of beneficiaries, the tax is payable by the decedent's estate.

Farm land in an estate is valued at current use provided that (1) such farm land is transferred to beneficiaries included in classes AA, A and B, (2) such farm land was owned by the deceased or any beneficiaries included in classes AA, A and B for more than 5 years during 8 years immediately preceding the decedent's death, and (3) the deceased or any beneficiaries shall have engaged in active and substantial farming or agricultural operations directly related to such farm for more than 5 years during the 8 years prior to the decedent's death (CGS Sec. 12-349(a)). PA 98-244 classified farmland transferred by a decedent to a partnership, corporation or trust held by family members who are Class AA, A, or B inheritors, to be valued as current use for Succession Tax purposes.

Rates for the Inheritance Tax range from 2.15-14.00 percent, depending upon the relationship of the beneficiary and the size of the estate. In addition, both a 30 percent surtax and a 10 percent surtax are levied on the transfer of property (CGS Sec 12-344a).

The Inheritance Tax is scheduled to be phased out by increasing the exemption amount for each class of inheritor over 5 years as follows (CGS 12-344):

Exemption amount for property inherited by Class A:	Effective date of exemption increase:
Property under \$50,000	Prior to 1/1/97
Property under \$250,000	1/1/97
Property under \$500,000	1/1/98
Property under \$800,000	1/1/99
Property under \$2,000,000	1/1/00
Tax on Class A is eliminated	1/1/01

Exemption amount for property inherited by Class B:	Effective date of exemption increase:
Property under \$6,000	Current law
Property under \$200,000	1/1/99
Property under \$400,000	1/1/00
Property under \$600,000	1/1/01
Property under \$1,500,000	1/1/02
Tax on Class B is eliminated	1/1/03

Exemption amount for property inherited by Class C:	Effective date of exemption increase:
Property under \$1,000	Current law
Property under \$200,000	1/1/01
Property under \$400,000	1/1/02
Property under \$600,000	1/1/03
Property under \$1,500,000	1/1/04
Tax on Class C is eliminated	1/1/05

Rate & Basis - The tax is based upon an heir or beneficiary's "privilege" to receive property. The following tax rates and exemption amounts are based on the relationship of the beneficiary to the decedent:

Inheritance Tax Rates
(Including Surtax)

Net Taxable Estate (\$000) Column 1	Class A		Class B		Class C	
	Tax on Col 1	Rate on Excess Col 1	Tax on Col 1	Rate on Excess Col 1	Tax on Col 1	Rate on Excess Col 1
0 to 1	\$0	0.0%	\$0	0.0%	\$0	0.0%
1 to 6	0	0.0	0	0.0	0	11.4
6 to 20	0	0.0	0	5.7	572	11.4
20 to 25	0	0.0	801	5.7	2,174	11.4
25 to 50	0	0.0	1,087	7.2	2,746	12.9
50 to 100	0	4.3	2,874	7.2	5,963	12.9
100 to 150	2,145	4.3	6,449	7.2	12,398	12.9
150 to 250	4,290	5.7	10,024	8.6	18,833	14.3
250 to 300	10,010	7.2	18,604	10.0	33,133	15.7
300 to 400	13,585	7.2	23,609	10.0	40,998	15.7
400 to 600	20,735	8.6	33,619	11.4	56,728	17.2
600 to 1,000	37,895	10.0	56,499	12.9	91,048	18.6
1,000 and up	77,935	11.4	107,979	14.3	165,408	20.0

In general, the closer the relationship (estate passes from parent to child) the larger the exemption and the lower the tax rate, the further the relationship (estate passes from decedent to a friend) the smaller the exemption and the greater the tax rate.

Payment - Inheritance tax is due at the death of the decedent and payable within six months thereafter (CGS Sec. 12-375). If the value of an interest in a closely held business exceeds 35% of the value of the gross estate, the tax may be paid in ten equal annual installments.

ESTATE TAX

Under certain circumstances, Connecticut imposes an estate tax (CGS Sec. 12-391). The tax is intended to preserve revenue for the state that would otherwise go to the federal government and is considered a "sponge tax". The Connecticut estate tax allows the state to retain the maximum credit allowed under federal law. This tax acts as a revenue safety net, used only when the total state death tax liability falls below the maximum federal credit. This occurs when an estate is comprised of assets that are not taxed by the state, but are taxed by the federal estate tax, such as life insurance (CGS Sec. 12-342). In cases such as these, the state is able to retain funds that would have gone to the federal government up to the maximum allowable credit. Therefore the state can pick up revenue with no increase in tax liability to the decedent's estate (CGS Sec. 12-391). The Estate Tax is extended to real and personal property in Connecticut owed by nonresidents. (PA 97-165)

Payment - Inheritance tax is due at the death of the decedent and payable within six months thereafter (CGS Sec. 12-375). If the value of an interest in a closely held business exceeds 35% of the value of the gross estate, the tax may be paid in ten equal annual installments.

GENERATION-SKIPPING TRANSFER TAX

A tax is imposed on certain transfers of property under trusts whose beneficiaries are two or more generations below the transferor. Specifically, it applies to taxable terminations under federal Generation Skipping Tax laws that occur on or after July 1, 1997. The amount of the tax is the amount of federal credit allowed for generation skipping transfer tax paid to any state under the IRS Code.

A taxable termination occurs upon the termination of a trust interest (a current right to receive trust income or principal) if, after the termination, all trust interests are held by (1) beneficiaries who are two or more generations below that of the transferor or (2) a trust for the benefit of such people. A taxable distribution is any distribution from a trust or principal to such people or trusts. A direct skip is a outright transfer of a property interest to such people or trusts. Every personal is allowed a \$1 million Generation Skipping Tax exemption.

Payment - The tax is due if there is a taxable distribution or termination under the federal law. The person responsible for paying the federal Generation Skipping Tax must pay the state tax by the initial deadline for filing the federal return, regardless of whether that deadline was extended. (Under federal law the trustee pays the tax on a taxable termination. The transferee pays it on a taxable distribution.) In the case of a direct skip, payment is due on the date in which an estate or gift tax payment is required. In all of the cases, the due date is on or before the 15th day of the 4th month after the close of the tax year of the person required to file the return. (PA 97-165)

HOSPITAL GROSS EARNINGS TAX

A tax is imposed on the gross earnings of each hospital in Connecticut. (PA 94-9, PA 94-175 and PA 95-160).

Computation of Tax

Rate & Basis - The tax is levied on the gross earnings of each hospital in the state at a rate of 11% (PA 94-9). The rate is reduced to 9.25% effective 10/1/96, 8.25% effective 10/1/97, 7.25% effective 10/1/98, and 4.5% effective 10/1/99 (PA 94-144 and PA 99-173). Gross earnings are defined as the hospital's net revenue minus (A) the amount that is projected to be received from the federal government for Medicare patients and (B) the amount that is projected to be received from the Department of Social Services. There are 31 hospitals that file quarterly with the Department of Revenue Services.

Exemptions -

- CT Children's Hospital (CGS Sec 12-263a(1))
- John Dempsey Hospital (CGS Sec 12-263a(1))

Payment - The tax is payable on or before the last day of January, April, July and October for the calendar quarter ending the last day of the preceding calendar month. Prior to 7/1/95, interest on unpaid taxes is 1.67% per month or 20% per year, from the due date of the tax until payment. After 7/1/95, the interest rate is 1% per month or 12% annually (PA 95-359) . Nonpayment penalty is 10% of the unpaid tax or \$50, whichever is greater

State Exclusions

1. Children's Hospitals

Description: Exempts any hospital which, on January 30, 1997, is within the class of hospitals licensed by the Department of Public Health as children's general hospitals. (CGS Sec 12-263a(1)).

Estimates: \$1.5 million.

Rationale: The children's hospital primarily serves non-Medicare patients. PA 97-2 exempts the CT Children's Hospital from the tax.

2. Acute Care Hospitals

Description: Exempts any short-term acute hospital operated exclusively by the state other than a short-term acute hospital operated by the state as a receiver pursuant to chapter 920. (CGS Sec 12-263a(1)).

Estimates: \$4.5 million in FY 2000.

Rationale: To eliminate the state from taxing itself. PA 99-173 exempts the John Dempsey Hospital from the tax.

GIFT TAX

A tax is imposed on gifts taxable under federal law (certain gifts worth over \$10,000). The tax applies to the transfer of personal and real property situated within the state by residents and nonresidents of Connecticut. This tax is effective for gifts made on or after September 1, 1991 (PA 91-3 JSS). (Chapter 228c)

Computation of Tax

Gifts by resident and nonresident individual donors are subject to the Connecticut gift tax. Residents are taxed on all gifts of intangible property (such as interest-free and below market interest loans, certain loan guarantees, and dividends) and of real property and tangible personal property situated in Connecticut, provided the donor is required to file a federal Gift Tax Form 709. Nonresidents are taxed on gifts of real and tangible personal property situated in Connecticut and on tangible personal property within Connecticut if employed in carrying on a trade or business in Connecticut, provided the donor is required to file a federal Gift Tax Form 709. The first \$10,000 of gifts to any donee of a present interest in property is excluded from tax. A married couple may not file a joint gift tax return. However, they may elect to have all gifts made to third parties be considered to have been made one-half by each spouse. Thus, the first \$20,000 of gifts made by consenting spouses during the calendar year would not be subject to tax.

Rate & Basis - After 8/31/91, gifts which are taxable for federal purposes (certain gifts over \$10,000) are subject to the Gift Tax. Taxable gifts means the transfer by gift which are included in taxable gifts for federal gift tax purposes less federal gift tax deductions. Deductions from the Connecticut Gift Tax are the same as those allowed in Sections 2522 to 2524 of the IRS Code. (CGS Sec. 12-643) The tax rate is as follows:

Amount of Taxable Gifts	Tax Rate
Not Over \$25,000	1%
Over \$25,000 but not over \$50,000	\$250, plus 2% of excess over \$25,000
Over \$50,000 but not over \$75,000	\$750, plus 3% of excess over \$50,000
Over \$75,000 but not over \$100,000	\$1,500, plus 4% of excess over \$75,000
Over \$100,000 but not over \$200,000	\$2,500, plus 5% of excess over \$100,000
Over \$200,000	\$7,500, plus 6% of excess over \$200,000

Exemptions - Transfers of tangible personal property and real property located outside of the state are exempt.

Payment - The donor must file a return and pay the tax by April 15 for taxable gifts made in the previous calendar year. If the donor does not pay the tax, the recipient is liable for it. Effective for the 1994 income year, the due date of a return for the year in which a donor dies is the date for filing a federal gift tax return.

What is a transfer by gift? - A gift is a voluntary transfer (in any form or manner) of property (of any kind or nature) by one to another without consideration of compensation therefor. It is a gratuity. The gift tax applies to transfers made as gifts whether the gift is in trust or not, is directly or indirectly made, and regardless of the nature of the property. The gift tax is not imposed upon the receipt of the property by the donee, nor is it conditioned upon ability to identify the donee at the time of transfer. The gift tax is not a tax on property, but is a tax on the transfer of property that constitutes a "gift". (IRS Code Sec 2511)

State Exclusions

1. \$10,000 Annual Exclusion

Description: A donor may exclude from the total amount of gifts subject to tax the first \$10,000 (\$20,000 made by consenting spouses) in value of gifts of present interest to each donee during a calendar year. Gifts of present interests are those where the donee can immediately enjoy the property or its income. If the gifts are of future interest, however, no part of the value of gifts may be excluded. (CGS Sec 12-643, IRS Code Sec. 2503)

Estimates: Indeterminate.

Rationale: Conformity and Administrative Efficiency.

Taxpayers benefiting: 7,000

2. Transfers Outside of the State

Description: Transfer of tangible personal property and real property located outside the state of Connecticut are excluded from the Gift Tax. (CGS Sec. 12-641)

Estimates: Indeterminate.

Rationale: Administrative Efficiency.

3. Charitable Transfers and Similar Gifts

Description: Transfers by gift to charity for a calendar year are excluded from the gift tax. (CGS Sections 12-644(c)(2) and 12-643, IRS Code Sec 2522)

Estimates: Indeterminate.

Rationale: Conformity and Administrative Efficiency.

4. Gifts to Spouse

Description: All gifts made to a spouse are excluded from the tax. (CGS Sections 12-644(c)(2) and 12-643, IRS Code Sections 2523-2524)

Estimates: Indeterminate.

Rationale: Conformity and Administrative Efficiency.

PUBLIC SERVICE COMPANIES TAX

The tax is imposed on the public service company gross earnings.

Computation of Tax

Rate & Basis - The basis for the tax is gross earnings from which the following deductions are made: (1) all sales for resale of steam, gas and electricity to public service corporations and municipal utilities and (2) any federal BTU energy tax. The following companies are taxed at the rates listed (CGS Sec. 12-249, 251, 255, 256, 264, 265):

<u>Public Service Company</u>	<u>Tax Rate</u>	<u>CGS Section</u>
Community Antenna and TV Systems	5.0%	12-258(3)
Gas, Electric & Power	5.0%	12-265(b)
Sale to residential customers electric power and gas	4.0%	12-265(b)
Telegraph & Cable	4.5%	12-258(2)
Railroad Companies	2-3.5% [1]	12-251(2)
Express Companies	2.0%	12-258(1)

[1] The rate of tax on gross earnings of railroads varies with the amount by which net railway operating income exceeds gross earnings (i.e., when net railway operating income does not exceed 8%, the rate of tax is two percent of gross earnings and the rate increases by one quarter of one percent for each additional 2% that net operating income exceeds gross earnings. When the net income exceeds eighteen per cent of gross earnings, the tax rate is three one-half percent.)

Payment - Railroad express companies must pay the annual tax by July 1. Community Antenna Television companies are required to pay their entire tax on or before April 1 (CGS Sec. 12-256). Gas, electric steam and power companies are required to pay their taxes in quarterly payments, due on the last days of January, April, July and October (CGS Sec. 12-264). Railroad companies are required to pay one-half of the preceding calendar year tax liability on June 15, and the remaining half on November 15, (CGS Sec. 12-253).

1. Deductions from gross earnings

Sales for resale. All sales for resale of water, steam, gas and electricity to public service corporations and municipal utilities, whether or not the purchasers are Connecticut public service corporations or Connecticut municipal utilities, and whether or not they are subject to the Public Service Companies Tax. CGS Sec. 12-265(b)(1).

Rationale and history: Incentive: the exemption is intended to reduce cascading. It was created prior to 1949.

Appliance Sales. The net invoice price plus transportation costs of appliances using water, steam, gas or electricity, sold by utility companies. "Net invoice price" means invoice price less trade discounts. CGS Sec. 12-265(b)(3).

Rationale and history: Redundancy: appliances are taxable under the Sales and Use Tax. The exemption was created prior to 1949.

Real Estate Property Taxes paid by railroad companies. The amount of taxes paid in any town in Connecticut on real estate not used exclusively in the business of the corporation, is deductible from the amount of tax on gross earnings. CGS Sec. 12-251(b).

Rationale and history: Incentive.

2. Other Exemptions

Manufacturing. The 5% tax on gas and electricity supplied to manufacturing customers in SICs 2000-3999 is being phased out as follows (CGS Sec. 265(c)):

Rationale and history: Incentive: the phase out is intended to reduce cascading. It was enacted by PA 93-73 and PA 93-332.

3. Rate Reductions

Residential Utilities. Companies and municipal utilities are taxed at the rate of 4%, rather than 5%, on gross earnings from manufacturing, selling or distributing gas or electricity for residential light, heat or power. CGS Sec. 265(b).

Rationale and history: Perceived Equity. The rate reduction was created by PA 85-159.

4. Tax Credits

Air pollution abatement facilities and industrial waste treatment facilities. Tax credits for air pollution abatement facilities and industrial waste treatment facilities are available to all Public Service Companies Tax payers:

Statutory Citations for Public Service Companies Tax Credits

	Air Pollution Abatement Credit (CGS Sec.)	Industrial Waste Treatment Credit (CGS Sec.)
Rail Road Companies	12-252a	12-252b
Express, Telegraph, Cable and Community Antenna Companies	12-258b	12-258c
Utility Companies	12-265b	12-265c

Tax credit for expenditures for air pollution abatement facilities. The credit is equal to five per cent of the expenditures paid or incurred during an income year for the construction, rebuilding, acquisition, expansion or planning of an air pollution abatement facility. The credit must be approved by the commissioner of environmental protection and is available only for facilities constructed, rebuilt, acquired

or expanded after January 1, 1967. If the amount of credit exceeds the amount of precredit tax liability, the remaining credit may be taken in any of following nine income years.

Rationale and history: Incentive. A credit which could be taken over four years was created by PA 67-754. PA 69-758 extended this limit to nine years.

Tax credit for expenditures for industrial waste treatment facilities. The credit is equal to five per cent of the expenditures paid or incurred during an income year for the construction, rebuilding, acquisition, expansion or planning of an industrial waste treatment facility. The credit must be approved by the commissioner of environmental protection and is available only for facilities constructed, rebuilt, acquired or expanded after January 1, 1967. If the amount of credit exceeds the amount of precredit tax liability, the remaining credit may be taken in any of following four income years.

Rationale and history: Incentive. The credit was created by PA 69-291.

Tax Credit for Personal Property Tax paid on data processing equipment. A 100% credit is provided for Personal Property Taxes paid on computer equipment, including printers, peripheral equipment and bundled software. The credit is applicable to Corporation Tax and railroad, cable television and public utility gross earnings taxes. A business must apply the credit first to its Corporation Tax liability. Any remaining credit may then be applied to the Public Service Companies Tax. The credit begins for Personal Property Taxes paid on October 1994 grand lists. CGS Sec. 12-217t.

Rationale and history: Incentive: the phase out is intended reduce cascading. It was enacted by PA 94-4 of the May Special Session, PA 95-160 and PA 96-144. PA 95-160 delayed the Act from 10/1/94 Grand List to 10/1/96 Grand List. PA 96-144 reinstated the original effective date of 10/1/94 Grand List.

Tax Credit for rehabilitating historic homes. A tax credit for expenses related to rehabilitating historic homes is created by PA 99-173 effective 1/1/00. The credit applies to expenses over \$15,000 with a cap on the credit of \$30,000 for each home. The credit is capped at \$3 million per year and can be carried forward for up to four years. The credit is also available under the Corporate Business Tax, Insurance Premiums Tax and other taxes. (New, CGS Sec. numbers not assigned.)

Rational and history: Expediency and incentive. Enacted by PA 99-173.

PETROLEUM COMPANY GROSS EARNINGS TAX

The petroleum company gross earnings tax was enacted by PA 80-71. It subjects companies that distribute petroleum products in Connecticut to a 5% tax on the gross earnings from such sales or use in this state. (CGS Sec 12-587). Currently there are approximately 670 taxpayers remitting this tax on a quarterly basis.

Computation of Tax

Rate & Basis - A gross earnings tax is imposed on companies distributing petroleum products to wholesale and retail dealers for marketing and distribution in the state. The rate is 5% (effective 10/1/91) on gross earnings from sales of petroleum products in this state and gross earnings from sales of petroleum products in this state by any corporation in which the taxpayer owns twenty-five percent or more of the stock of such corporation. Petroleum products include gasoline, aviation fuel, kerosene, diesel fuel, benzol, distillate fuels, residual fuels, crude oil and derivatives of petroleum such as paint, detergents, antiseptics, fertilizers, nylon, asphalt, plastics and other similar products (CGS Sec. 12-587).

A use tax of 5% is imposed on companies that import petroleum products into the state for their own consumption if the value of these products in any quarter is more than \$100,000.

Payment - The tax is payable on or before the last day of the month following each quarterly period of the year based on the preceding quarter's gross earnings from the in-state sale of petroleum products.

INSURANCE PREMIUMS TAX

Insurance Companies, Hospital & Medical Services Corporation Tax

A tax on insurance premiums was first enacted in Connecticut in 1935. The tax is imposed on domestic, foreign insurance companies and health care centers on all net direct premiums received from policies, written on property or risk located in Connecticut, at a rate of 1.75% of premium. Premiums for unauthorized insurance businesses are taxed at the rate of 4% of their receipts on Connecticut risk.

Domestic insurance companies are incorporated under Connecticut state law and licensed by the insurance commissioner to issue policies. Nonresident or foreign insurance companies are incorporated under the laws of another state or foreign government but must be licensed by the insurance commissioner in order to issue policies in this state. Unlicensed insurance companies must register with the insurance commissioner and may only then offer lines generally unavailable from licensed insurers.

Computation of Tax

Insurance Premiums Tax

Rate & Basis - The tax is levied as follows (CGS Sec. 12-202):

1. Domestic companies: 1.75% on all net direct insurance premiums derived from policies written in this state. (The tax on interest and dividends was terminated 12/31/73). (CGS Sec. 12-202)
2. Foreign companies: 1.75% on all taxable net direct premiums derived from policies written in this state.

Payment - Both domestic and foreign insurance companies are required to pay 30% of their estimated tax by March 15, 60% by June 15, 80% by September 15 and 100% by December 15. Any remaining tax is due on or before March 1 (CGS Sec. 12-204b, 205). Effective with the 1996 income year, companies have the option of making estimated payments based on (1) current year estimated tax liability or (2) the prior year's estimated tax payment (CGS 12-204c).

Prior to 7/1/95, domestic and foreign insurance companies must pay 1 2/3% interest per month or 20% per year on late payments and underpayment of estimated taxes and audit assessments. After 7/1/95, the interest rate is 1% per month or 12% annually (PA 95-26). Prior to the 1996 income year, interest is due if the first payment is less than 27%, the second payment less than 63%, the third payment less than 72% or the fourth payment less than 90% of the actual tax due for the income year (CGS Sec. 12-204b, 204c, 206, 212c). For income years beginning on or after 1/1/96, corporations may avoid interest by making estimated payments based on the prior year's estimated payment (CGS 12-204c).

Hospital and Medical Services Corporation Tax

Rate & Basis - The tax is imposed upon all hospital and medical service companies at a rate of 2% on the total net direct subscriber charges received by such corporations during the preceding year. (CGS Sec. 12-212a)

Payment - same as for the Insurance Premiums Tax (see above)

Unauthorized (Unlicensed) Insurance Company Tax

Rate & Basis - A 4% tax is levied on unlicensed companies on gross premiums derived from policies written in the state (CGS Sec. 38a-743).

REAL ESTATE CONVEYANCE AND CONTROLLING INTEREST TRANSFER TAXES

Real Estate Conveyance Tax

The Real Estate Conveyance Tax was enacted on the municipal level in 1967 and became a General Fund tax in 1983. It is imposed on the full purchase price of all conveyed real property and is due from the seller of the property.

Rate & Basis - (CGS Sec. 12-494) A tax is imposed on the conveyance of each deed, instrument or writing whereby any lands, tenements or other realty is granted, assigned, transferred or otherwise conveyed to a purchaser. The tax rate depends on the property's classification and purchase price, as noted below:

<u>Type of Property</u>	<u>Tax Rate</u>	<u>CGS Section</u>
Unimproved land	0.5%	12-494(a)
Residential Dwelling:		
First \$800,000 of purchase price	0.5%	12-494(b)(2)(A)
Portion that exceeds \$800,000 of purchase price	1.0%	12-494(b)(2)(B)
Residential Property other than a dwelling	0.5%	12-494(a)
Nonresidential Property other than unimproved land	1.0%	12-494(b)(1)
Delinquent Mortgages	0.5%	12-494(b)(3)

Payment -The tax is paid to the town clerk upon the recording of the conveyance and remitted to the State within ten days.

Real Estate Conveyance Tax Exclusions and Exemptions

Data is not available for Real Estate Conveyance Tax exemptions.

Conveyances of less than two thousand dollars. CGS Sec. 12-494(a).

Rationale and history: Efficiency: the amount of revenue which could be collected is considered too small to justify the administrative costs. PA 67-693, which enacted the tax at the municipal level, exempted conveyances of one hundred dollars or less. PA 83-1 of the June Special Session, which enacted the tax at the state level, did not provide an exemption for conveyances below any dollar amount. PA 89-205 created the current exemption.

Burial Rights. CGS Sec 12-497a.

Rational and history: PA 95-62 exempted cemetery burial rights from the Real Estate Conveyance Tax and from filing requirements. Since the value of burial rights and cemetery plots are less than \$2,000, they are already exempted from the tax.

Deeds which this state is prohibited from taxing under the constitution or laws of the United States. CGS Sec. 12-498(a)(1).

Rationale and history: Conformity: states are not permitted to levy taxes on the federal government under the US Constitution. The exemption was contained in PA 67-693, which enacted the tax at the municipal level.

Governmental entities. Deeds to which this state or any of its political subdivisions or its or their respective agencies is a party. CGS Sec. 12-498(a)(3).

Tax deeds. CGS Sec. 12-498(a)(4).

Corporate subsidiaries. Deeds made by a subsidiary corporation to its parent corporation for no consideration other than the cancellation or surrender of the subsidiary's stock. CGS Sec. 12-498(a)(8).

Rationale and history: Incentive: the exemption provides horizontal equity for firms which are organized as a parent company with wholly-owned subsidiaries with firms that are organized as a single entity with different divisions. (See Sales Tax section for discussion of horizontal equity.) The exemption was contained in PA 67-693, which enacted the tax at the municipal level.

The Farm, Forest and Open Space Program

In 1963, the legislature established this program to preserve farm, forest and open space land using preferential taxation. The program permits land owners to pay a reduced amount of Property Tax on land which has been classified as farm, forest or open space for a period of ten years. The Property Tax reduction is accomplished by assessing the land's value based on its current use rather than its market value.

In an attempt to prevent abuse of the program and to help recover abated taxes, an additional Real Estate Conveyance Tax is levied on the sale of such land while it is in the program. For open space land, the additional tax is due if the land is sold within ten years of when it is classified for the program (CGS Sec. 12-504a(a)). For farm or forest land, the additional tax is due if the period of ownership of the land is ten year or less (CGS Sec. 12-504a(b)). The rate of additional tax begins with 10% in the first year and declines to 1% in the tenth year. If the property is sold after the tenth year, only Real Estate Conveyance Tax at the normal rate is due.

The exemptions to the additional tax on farm, forest and open space parallel those for the Real Estate Conveyance Tax, with the following exceptions:

Transfers of land resulting from eminent domain proceedings. CGS Sec. 12-504c(a).

Rationale: Clarification.

Strawman deeds and deeds which correct, modify, supplement or confirm a deed previously recorded. CGS Sec. 12-504c(d).

Rationale: Clarification: recording a such deeds does not convey title to a new owner.

Deeds with special covenants. Land subject to a covenant specifically set forth in the deed transferring title to such land to refrain from selling or developing such land in a manner inconsistent with its classification as farm, forest or open space land for a period of not less than eight years from the date of transfer. CGS Sec. 12-504c(m).

Rationale: Incentive: transferring deeds with such covenants is consistent with the goals of the program.

Farmland development right sold to the state. CGS 12-504c.

Rationale and history: Incentive. PA 99-173 exempts land development rights to agricultural land under the state farmland preservation program from the tax.

Controlling Interest Transfer Tax

A tax is imposed on the transfer of a controlling interest in a corporation, partnership, association, trust or other entity, where an entity owns an interest in Connecticut real property with a value of at least \$2,000. In a corporation, "controlling interest" means more than 50% of the combined voting power of all classes of stock in the corporation. For all other entities, "controlling interest" is an amount greater than 50% of the capital, profits or beneficial interest in that entity. (CGS Sec 12-638b(a))

Rate & Basis - A tax of 1.11% is imposed upon the value of any real property held by any corporation, partnership, association, trust or other entity when the interest in the real property is transferred. An additional tax of 1.0% to 10.0% is added if the property was classified as farm land, open space or forest. The additional rate decreases, the longer the land has been held. A transfer is deemed to occur if more than 50% but less than 100% of the total combined voting power of all classes of stock is sold or transferred.

Payment - The payment is due on or before the last day of the month following the month in which transfer of controlling interest occurs.

Exemptions

Data is not available for Controlling Interest Transfer Tax exemptions.

Rationale and history: Incentive. The exemption was contained in PA 89-251, which enacted the tax.

Conveyances of less than two thousand dollars. CGS Sec. 12-638b(a).

Rationale and history: Efficiency: the amount of revenue which could be gained was considered too small to justify the administrative costs. The exemption was contained in PA 89-251, which enacted the tax.

CIGARETTE AND TOBACCO PRODUCTS TAX

Computation of the Tax

A tax is levied on all cigarettes held by distributors in the state (CGS Sec. 12-296) and on the use or storage of unstamped cigarettes (CGS Sec. 12-316). Distributors must pay a floor tax reflecting the increased taxes for cigarettes in inventory when higher taxes go into effect. Distributors, dealers and vending machine operators must be licensed by the Department of Revenue Services. A tax is imposed on all tobacco products held in this state by distributors or unclassified importers.

Rate & Basis - The Cigarette Tax is levied on all cigarettes held by distributors in the state at a rate of 25 mills per cigarette, or 50 cents per pack of 20, effective 7/1/94 (CGS Sec. 12-296). Payment of the tax is indicated by affixing heat applied decals to each pack of cigarettes. The decals are sold to licensed dealers and licensed distributors, who must report to the Commissioner of Revenue Services on a monthly basis. There are approximately 70 taxpayers who file monthly.

A tax is imposed on all tobacco products held in this state by distributors or unclassified importers at a rate of 20% of the wholesale price. The tax is levied on such tobacco products as cigars, cheroots, stogies, periques, snuff and chewing tobacco, but excludes cigarettes (CGS Sec. 12-330a). Distributors must be licensed annually and file monthly returns. The tax has been in effect since July 1, 1989 (PA 89-251) and is paid by approximately 200 distributors.

Payment - Cigarette distributors must acquire stamps from the Department of Revenue Services, which are affixed to each package of cigarettes. The stamps may be paid for immediately or within 30 days from the date of purchase (CGS Sec. 12-298). The Tobacco Products Tax is payable on or before the tenth day of each month, for sales in the preceding calendar month (CGS Sec. 12-330d).

MOTOR VEHICLE FUELS AND MOTOR CARRIER ROAD TAXES

The Motor Vehicle Fuels Tax is an excise tax imposed on motor vehicle fuel sold in the state.

The Motor Carrier Road Tax is levied on motor vehicle fuel used in the state by licensed motor carriers, at the same rate as the Motor Vehicle Fuels Tax (CGS Sec. 12-479).

Gasoline Tax

Rate & Basis - The tax is levied on distributors of motor fuel sold or used within the state. The rate on gasoline is 32 cents per gallon and gasohol is taxed at 1 cent less than the tax on gasoline (CGS Sec. 12-458 and 462). Diesel fuel, propane gas (PA 93-93) and natural gas (PA 95-159) used as motor vehicle fuel are taxed at 18 cents per gallon.

Payment - The tax is payable on or before the twenty-fifth day of each month based upon the preceding month's sales (CGS Sec. 12-458).

Motor Carrier Road Tax

Rate & Basis - The tax is imposed on motor carriers using Connecticut highways. It is based on the amount of motor fuel used by these carriers within the state. In the case of a motor carrier operating both within and without Connecticut, the amount of motor fuel used is determined by proportionate mileage. This tax is imposed at a rate equal to the current rate of tax per gallon on diesel fuel (\$.18). A credit is allowed for the amount of taxes paid on motor fuels purchased by the motor carrier within Connecticut (CGS Sec. 12-478 to 480)

On January 1, 1996, Connecticut entered into the International Fuel Tax Agreement (IFTA), which is a cooperative agreement among most states and provinces of Canada to simplify the collection and reporting of fuel use tax by interstate motor carriers. (CGS 12-486)

Under IFTA, fuel tax returns are filed in the base jurisdiction of the motor carrier. The base jurisdiction of a motor carrier is where the vehicle is based for registration purposes and where operations are controlled and the vehicle is operated. For IFTA fuel tax reporting, a qualified motor vehicle is a vehicle that is designed to transport persons or property and that has: two axles and a gross vehicle weight or registered gross vehicle weight over 26,000 pounds; or three or more axles regardless of weight; or when used in combination, a combined gross vehicle weight over 26,000 pounds. Motor carriers who meet this qualification, and who travel solely within the State, are not required to file a return, but instead are subject to the tax at the time of purchase. (CGS Sec. 12-478(5))

Refund - The payment of the tax shall be subject to refund when the credit for Connecticut motor fuel taxes paid exceeds the motor carrier road tax (CGS Sec. 12-480).

Payment - The tax is payable quarterly and due on January 31, April 30, July 31 and October 31 (CGS Sec. 12-483).

A refund for tax paid on fuel purchased by municipalities for use by school bus contractors in transporting children to and from school, is available under CGS Sec. 12-459(a)(7).

The exemption for municipalities was created by PA 71-784 and PA 71-8 of the June Special Session. PA 72-205 exempted fuel sold to the state. PA 75-511 exempted fuel sold to transit districts. PA 84-427 created the refund provision for transit districts.

History and Rationale: Incentive. The exemption was created by PA 94-170. Various public acts have extended the sunset of the Alternative Fuels exemption. PA 99-173 is the most recent act that extends the sunset from 7/1/2000 to 7/1/2002. PA 96-183 and PA 96-222 had extended the original sunset date of 7/1/99 to 7/1/2000.

PROPERTY TAX

Taxation of property predates most other forms of taxation in the United States because property taxes were levied before the US Constitution was written. Thus, exemptions to property taxes have had a lengthy and well-documented history. The nature and breadth of modern property tax exemptions vary widely from state to state, due at least in part to the fact that the United States Constitution is silent on what types of exemptions are specifically granted or prohibited. [1]

Property Tax exemption policy is primarily based on the nature of the owner of the property. The following discussion deals with the exemptions granted to different classes of property owners in the state of Connecticut.

Federally-owned Property

CGS Sec. 12-81(1) grants an exemption for federally owned property. This is based on the rationale that only Congress has the power to authorize tax payments on federal property to lower level governments. Since Congress has not authorized such payments, the only circumstances under which federally-owned property is taxable by state and municipal governments is when such property is leased to a private business. [2]

State and Municipal Property

The rationale behind the exemption of state and municipal property (CGS. Sec. 12-81(2) and (4)) is that it would only transfer public funds within the state. This reasoning is strained with respect to state property, which imposes unreimbursed costs on the municipalities. In recognition of this, Connecticut reimburses municipalities in a payment in lieu of taxes (PILOT) formula for state-owned property.

The "public purpose" clause is absent in the state exemption (CGS Sec. 12-81(2)) but present in the municipal exemption (CGS Sec. 12-81(4)). This difference has not been clarified by court cases. Courts have disallowed exemptions for property owned by a city in another town which is devoted to a non-public use [3], and for municipal property available for use by only a limited number of persons. [4]

Property Devoted to Scientific Educational, Literary, Historical or Charitable Purposes

Under CGS Sec. 12-81(7), the exemption applies to organizations devoted to these uses provided "any officer, member, or employee does not receive financial reward in excess of 'reasonable compensation for services'." This language is similar to the wording used by other states for statutes with analogous clauses. What tends to differ among states are the types of organizations that qualify for this exemption.

[1] Even the immunity of federally-owned property from taxation was not guaranteed; it was not until the Supreme Court ruled, in McCullock v. Maryland, 17 U.S. 579 (1819), that taxation of federal property by states was an interference with the former's sovereignty.

[2] City of Detroit v. Murray Corp., 355 U.S. 489 (1958); United States and Borg-Warner Corp. V. City of Detroit, 355 U.S. 466 (1958); United States v. Township of Muskegon, 355 U.S. 484 (1958); and American Motors Corp. V. City of Kenosha, 356 U.S. 21 (1958).

[3] Town of West Hartford v. Board of Water Commissioners of Hartford, 44 Conn. 360 (1877).

[4] Laurel Beach Association v. Milford, 148 Conn. 233, 169 A.2d. 748 (1961).

The rationale for this type of exemption is that such organizations perform functions that government would have to undertake in their absence, or that such functions are socially desirable, but are not within the scope of government activities. Instead of taxing such institutions and providing subsidies, the state grants a tax exemption.

To qualify for the exemption, an educational organization must clearly demonstrate that there is no opportunity for private gain from the existence or dissolution of its operations. Restrictive admission practices or high tuition are not sufficient reasons to deny exemption. However, the curriculum should consist of "systematic instruction and training for the young in preparation for the work of life." [5] Other court rulings have maintained this limitation of instructional latitude to correspond with instruction in government-supported schools within the state.

Qualification for an exemption for charitable purposes has been interpreted more liberally by the courts. A charitable purpose "no longer is restricted to mere relief of the destitute or the giving of alms, but comprehends activities ... which are intended to improve the physical, mental and moral condition of the recipients and make it less likely that they will become burdens on society and more likely that they will become useful citizens Charity embraces anything that tends to promote the well doing and the well-being of social man." [6] Only political activity and the opportunity for private gain appear to circumscribe tax exemptions for organizations devoted to charitable purposes.

A comparable case history on the exemptions for scientific, literary and historical purposes does not exist. Because government does not ordinarily provide services in these areas, it cannot be said that these organizations are relieving any governmental burden. Most states are more restrictive than Connecticut in granting exemptions for scientific, literary and historical purposes.

College Property

Colleges and universities qualify for exemption under CGS Sec. 12-81(7). In addition, the "funds and estate" of seven private Connecticut colleges [7] "respectively invested and held for the use of such institutions, with the income thereof" are exempt from taxation under CGS Sec. 12-81(8) "Provided none of said corporations shall hold in this state real estate free from taxation affording an annual income of more than six thousand dollars."

The exempt status of these schools is also specified by the General Assembly in their charters. There is a strong argument that the exempt status of these colleges is constitutionally irrevocable. Since the state granted the exemptions in the charters of these institutions, it cannot revoke them without impairing its contract obligations. Exemptions of dormitories and dining halls [8] as well as temporary housing for married students [9] owned by Yale University have been upheld in two court challenges.

[5] Masonic Building Associates v. Town of Stamford, 119 Conn. 53, 59, 174 A. 301, 303 (1934).

The \$6,000 limitation on income from real estate has been interpreted to apply only to relevant income-yielding property; other college-owned property does not lose its exempt status if this income limitation provision is violated. [10]

Cemetery Property

For reasons similar to charitable and educational property, cemetery property has been exempted from taxation (CGS Sec. 12-81(11)). Since no serious objection to this exemption has been raised, there have been no landmark court cases in this area. Cemetery property is frequently owned by religious organizations. Also, in New England, many municipalities own cemeteries. In such cases, the religious or municipal exemption would probably take precedence, which may explain the absence of challenges to this exemption.

Religious Property

CGS Sec. 12-81(12) exempts personal property of religious organizations. In CGS Sec. 12-81(13), "houses of religious worship, the land on which they stand, their pews, furniture and equipment" are exempted. Also, "real property and equipment" of "any religious organization and exclusively used as a school, a Connecticut non-profit camp or recreational facility for religious purposes, a parish house, an orphan asylum, a home for children, a reformatory or an infirmary" are exempted in CGS Sec. 12-81(14). Finally, "dwelling houses and the land on which they stand" used by "officiating clergymen" are exempted in CGS Sec. 12-81(15).

Exemption of property used for religious purposes has a longer history than other exemptions. In pre-Constitution America there was no doctrine of separation of church and state, but because churches were generally considered as related to government, they were exempted as public agencies. The exemption practice simply continued in post-constitution America. Statutes specifically exempting religious property were generally not enacted until the nineteenth century.[11]

The First Amendment of the Constitution -- which states that "Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof" -- can be interpreted as either encouraging or prohibiting the taxation of churches. A Supreme Court decision upholding property tax exemption for churches [12] relied principally on arguments other than the establishment and free exercise clauses in the First Amendment. Yet, the wording and near-unanimity of that decision imply that any state which repealed its exemption of church property is likely to have its action reversed.

[10] Yale v. New Haven (1899).

[11] Connecticut's exemption originated in the Statute of Charitable Uses, adopted in 1684 and revised in 1702, which exempted property "for the maintenance of ministries of the Gospel." The wording has changed over time: in 1822 "churches" were exempted by the statute, but other religious organizations were not mentioned; in 1851, properties of benevolent organizations were also included. In 1925, the wording was altered so that "houses of religious worship" were exempted.

[12] Walz V. Tax Commissioner of the City of New York, 397 U.S. 664 (1970).

Presently, all 50 states exempt church property; 33 include the exemption in their state constitutions. In Connecticut, relatively few court-mandated restrictions have been placed on property used for religious purposes. A Masonic Temple was denied a religious exemption because, among other reasons, it "meets in secret", as a membership "dependent in part at least on social considerations", and its property was not "devoted to the practice of religious worship as it is customarily carried on ... in this state." [13] Recreational facilities of religious organizations were 'denied exemptions before they were specifically included in CGS Sec. 12-81(14) in 1955.

Hospital and Sanatoriums

The State exempts hospitals and sanatoriums (CGS Sec. 12-81(16)), provided that "no officer, member or employee thereof" receives "any pecuniary profit ... except reasonable compensation for services." Where an institution had become financially successful, the court ruled that under the statute, success alone (meaning that the institution was using sound financial management) did not transform the institution's purpose from one devoted exclusively charitable purposes. [14]

This exemption is analogous to that of educational, scientific and other such property. The rationale is the same: hospitals and sanatoriums provide services that would otherwise have to be provided by government. In many states, hospitals are operated by state or municipal government to a greater extent than in Connecticut. For example, New York City possesses an extensive municipal hospital system.

Other Governmental and Benevolent Exemptions

A number of exemptions similar to those outlined above are included in CGS Sec. 12-81. They are more specific in nature and in many cases, exempt an organization that would otherwise have qualified for the governmental or educational/charitable exemptions. Because the rationales for these have already been discussed, the items are only listed in the footnote below. [15]

Other Exempt and Non-Taxed Properties

In classifying property that is not subject to taxation, a distinction can be made between exempt and non-taxed property. Exempt property is not taxed under the existing ownership, but would be taxed under other ownership. The use to which the property is put or the nature of the owner gives exempt status to the property. Non-taxed property is not taxed regardless of ownership. For example, most personal property not taxed in Connecticut retains this, status regardless of ownership. much property that is not taxed, but does not appear on any exempt grand list can more accurately be called non-taxed.

[13] Masonic Building Association of Stamford, Connecticut, Inc. v. Town of Stamford, 119 Conn. 53, 60, 61, 174 A. 301, 304.

[14] Institute of Living V. Hartford Board of Tax Review, 13 Conn. Supp. 372 (1945).

[15] They consist of: CGS Sec. 12-81(5), property held by trustees for public purposes; (6), property of volunteer fire companies; (9), personal property loaned educational institutions; (10), property owned or horticultural societies; (18), property organizations; (27), grand army posts; (29), the Red Cross; (45), Connecticut National Guard; (48), airport improvements; and (49), nonprofit camps or recreational facilities charitable purposes.

Some business-owned properties possess exempt status. For example, provisions are made for special treatment of the property of common carrier motor bus companies and railroad companies. For the former, buses used for carrying passengers are exempt; if the carrier is a Connecticut bus company, fifty percent of property taxes on the assessed value of its real estate and relevant personal property used directly in the conduct of its motor bus business is waived. All property of railroads, if used exclusively for railroad purposes, is exempt from taxation.

The statutes allow towns to abate property taxes for certain types of property and require them to abate the taxes for other types. Some of these abatements are intended to stimulate business activity, such as redeveloping abandoned industrial sites; others have narrower aims, such as preserving historic properties, but may have economic development spin-offs.

Table 1 lists the optional town tax abatements. Some are for development activities, such as rehabilitating stores, factories, and apartment houses. Other abatements serve different public needs, such as those for solar energy systems, historic properties, and low-income housing.

Table 2 lists the abatements towns must provide to properties meeting specific statutory criteria. Some are available only in certain towns to manufacturers that build or expand plants or buy new machinery and equipment, while others address different public needs, such as the tax abatement for pollution control equipment.

Exemptions to Individuals

Partial exemptions for property occupied as dwelling places are granted to the blind, veterans, disabled veterans, elderly and specified relatives. Also exempted are a limited amount of property of United States army instructors (CGS Sec. 12-81(28)) and one motor vehicle of a serviceman "if ... garaged outside the state". (CGS Sec. 12-81(53))

Exemptions for the blind and veterans have a long history in Connecticut. Exemption provisions for the blind first appeared in the Connecticut General Statutes in 1867 and a veterans, exemption first appeared in 1887. Relief for elderly homeowners was initiated in 1965 with a tax freeze program. In 1973, circuit breaker legislation was added as an option for elderly taxpayers. The freeze program option for new participants was eliminated in 1980. The last significant revision of the circuit breaker program was in 1985.

These exemptions have different rationales behind them. When the veterans' and servicemen exemptions were originally enacted they represented payment in recognition of services rendered to one's country. The rationale for the various expansions of local options was expediency with some attempt at perceived equity by imposing certain income limits. The exemption for the blind attempts to recognize the handicap such people possess in earning a living and owning a house. The elderly exemption attempts to ease the property tax burden on a class of people who generally must live on a reduced income when they retire, but do not find their property taxes reduced commensurately.

Most non-business tangible and intangible personal property is not taxed. Some categories are specifically exempted by law among CGS Sec. 12-81(30)-(35), (43) and (47) [16]; others are not mentioned. The major reason that non-business personal property is not taxed is that the difficulties in identifying and taxing such property are deemed to outweigh the possible revenue.

[16] They are: CGS Sec. 12-81(30), Fuel and Provisions; (31), Household Furniture; (32), Private Libraries; (33), musical Instruments; (34), Watches and Jewelry; (35), Wearing Apparel; (43) Cash; (47), Carriages, Wagons, and Bicycles.

Much of this personal property was taxable in earlier times. In 1851, the general rule was adopted that all property not exempted by statute would be taxed. After this declaration, exemptions proliferated, particularly on personal property. The property tax on boats (CGS Sec. 12-81(64)) was eliminated in 1981 and replaced with an annual registration fee. Towns receive a payment equal to the property taxes received from boat owners on the October 1, 1978 Grand List. The property tax on aircraft (CGS Sec. 12-71(f)) was eliminated in 1993, effective with the 1992 Grand List, and replaced with an annual fee. Towns receive payment based on the property tax the town would have received on the 1992 Grand List minus the revenue from the registration fee. The amount of the payments to the towns from the Special Transportation Fund is 100% on April 1, 1994 and 1995, 90%, 70%, 50%, 30% and 10% in 1996, 1997, 1998, 1999, 2000, respectively.

A final non-taxed category consists of streets and waterways. They represent the difference between what is called the total gross area and total net area of a municipality. Streets are truly public domain; thus, the "value" of streets is normally considered to be reflected in the value of facing property. Water areas represent (unless filled in) non-developable property. Neither, therefore, is subject to appraisal or assessment.

The following tables provide statewide aggregate information on various property tax exemptions. The tables indicate the effect on the grand list, whether the exemptions are mandatory or discretionary, whether the state reimburses the municipality and for exemptions affecting individuals, the number qualifying and participating in the tax relief.
